

As property owner along W. Puetz Road from S. 76th Street to W. St. Martins Road:

- I favor Alternative No. 1, the WDOT Urban Section (40 foot pavement) with curb and gutter and walk.
- I favor Alternative No. 2, the WDOT Rural Section (22 foot pavement with 8 foot shoulders) with ditches and some storm sewer and a path.
- I favor Alternative No. 3, the City approach which would include pulverizing and resurfacing the existing 22 foot pavement with 2 foot shoulders with ditch and some Storm sewer.
- I favor Alternative No. 4, adding a path along the City approach (Alternative No.3). Some right-of-way acquisition might be required.
