

WAIVER FOR LOT PIPE LOCATE

Pursuant to my request to have my property corners located by the City of Franklin, I understand and acknowledge the following:

- A. City staff is only able to locate existing property corners (iron pipes) that were set by a licensed land surveyor.
- B. That the City is not responsible for the actual location of the corners or that the pipe found is the actual corner.
- C. That the City can only locate existing corners and can not replace a lost corner (lost corners must be replaced by a licensed land surveyor).
- D. The location of the property corners is a service provided by the City, but the City does not assume any liability for the accuracy of the property corner nor that the pipe found is the actual corner.
