

**PRESS RELEASE
November 1, 2010**

FOR IMMEDIATE DISTRIBUTION

**State of Wisconsin Reconstruction Project of
Loomis Road (Wis. 36) and Lovers Lane (Wis. 100)**

The State of Wisconsin is continuing its reconstruction of Loomis Road (Wis 36) and Lovers Lane (Wis 100). The State has informed the City of Franklin that during the two-week period scheduled to end Wednesday, November 10, 2010, the contractor for the State will be focusing on the intersection of these two roads. During that period there will be multiple lane closures and reconfigurations of the traffic pattern. The construction activity and changing traffic patterns may cause traffic congestion and back-ups. Vehicle traffic may find it advantageous to avoid this intersection during this phase of the project.

The Loomis Road (Wis 36) and Lovers Lane (Wis 100) project is a State project managed and under the oversight of the State of Wisconsin. It is not a City of Franklin Project.
