May 13, 2020

Citizens of Franklin, Honorable Mayor and Common Council members:

Introduction

The Comprehensive Annual Financial Report of the City of Franklin, Wisconsin for the fiscal year ended December 31, 2019, is hereby submitted. State law requires that all local governments with a population over 25,000 publish a complete set of financial statements that are presented in conformity with general accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the City of Franklin (City). Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh the benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included in this report.

The City's financial statements have been audited by Baker Tilly Virchow Krause, LLP, a firm of certified public accountants experienced in auditing governmental entities. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2019, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Baker Tilly Virchow Krause, LLP concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended December 31, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

City Profile

The City of Franklin, incorporated in 1956, is located in the southwestern corner of Milwaukee County The City is 34.5 square miles in size and has a population of 35,996. Over the last ten years the City has experienced no real growth in population. The city is a residential community (75.7%) with a commercial and industrial component (24.3%). Median Family Income of \$102,206 is 144% of the national average. Approximately one third of the acreage in the City is undeveloped, which demands attention to growth issues. It is considered to be one of the more desirable communities in the Milwaukee metropolitan area in which to live and work. The City provides a typical range of municipal services for a suburban community including police fire protection emergency medical/paramedic, maintenance of streets and other infrastructure, library, public health services, recreational activities, building inspection, zoning control, refuse collection, recycling collection, sanitary sewer, storm sewer and water services, both construction and maintenance. The City is authorized to levy property tax on real and personal property located within its boundaries to support the services provided

The City operates under the mayor/council form of government Policy making and legislative authority are vested in a governing council consisting of a mayor and six council members The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring management The City's Mayor is responsible for carrying out the policies and ordinances of the governing council, for overseeing the dayto-day operations of the government and for appointing the heads of the various departments The Council is elected, by district on a non-partisan basis The Mayor and Council members serve staggered three-year terms The City is organized into departments, headed by ten officials appointed by the Mayor or Director of Administration and confirmed by the Common Council Numerous boards, commissions and committees allow for citizen involvement in government by providing a forum for policy input to the Council and guidance to the departments Library service is provided through a separate Library Board that functions like a department of the City and engages the Library Director Water service is provided through a separate Water Utility that functions like a department of the City The Water Utility also has a Board of Water Commissioners which oversees water utility operations In 2015, the State mandated that a portion of hotel taxes be dedicated to tourism, as such the City formed a separate Tourism Commission which utilizes those tax resources to promote the City in the area These areas therefore have been included as an integral part of the City's financial statements The City also is financially accountable for a legally separate Community Development Authority (Authority) The Authority's activities are reported within the City's financial statements Additional information on the Authority can be found in Note 1 in the notes to the financial statements

The budgetary process serves as the foundation of the City's financial planning and control system The objective of the budgetary process is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Common Council The preparation of a forecast for the existing programs for the following year is prepared during July and August Departmental requests for personnel changes and new capital outlay expenditures are made by the middle of August The Mayor then reviews the forecast including recommended personnel and capital expenditures and determines by mid-August the personnel and capital expenditures that will be included in the initial departmental requested budgets The departments take this information and submit their requested budgets by the middle of September The Council reviews the recommended budget and agrees on a proposed budget by mid-October The Council is required to hold a public hearing on the proposed budget in early November, and then adopts a final budget in mid-November

The adopted budget is prepared by fund, function (e.g. Public Safety), and department (e.g. Police) Transfers of appropriations between funds, functions or department require the approval of the governing council Budget-to-actual comparisons are provided in this report for each governmental fund with an adopted budget. The General Fund comparison is presented in Exhibit F as part of the basic financial statements for the governmental funds with and in Schedules 3 & 4 of the supplementary information. For governmental funds with adopted budgets other than the General Fund, this comparison is presented in the supplementary information section of this report.

The information presented in the financial statements is perhaps best understood when considered from the broader perspective of the environment that the City operates

Economic Condition and Outlook

The economic activity in Franklin in both the residential and the non-residential sectors was stable. New construction was elevated in 2019 compared to 2018 as evidenced by increased construction permit revenues. The Ballpark Commons project, estimated to add \$160 million in new development saw several commercial projects initiated in 2019. In addition, the Statesman Estates multi-family development completed late in 2019, and the Bear Development project in the southwest portion of the City got infrastructure work underway Several new residential subdivisions are in various stages of completion.

Estimated actual property values have grown at an average annual rate of 1 94% since 2009 The new growth was \$64 6 million in 2019, \$34 6 million in 2018, and \$19 million in 2017 2020 growth is expected to be larger still reflecting the impact of Commercial activity New growth has averaged less than 1% the last ten years, with eight of the ten years having less than 1% growth Limits on levy increases are currently restricted to new growth, and this has meaningfully dampened tax levy increases, the largest resource to the City

The City has been successful in restricting tax levy increases by utilizing tools the State provided retarding growth of employee benefits and the shifting tax levy from debt service to operating needs. This is a non-sustainable process

A landfill in southwestern portion of the City received an expansion of its license (from the State) The landfill has provided approximately \$1 million in revenues to the City in prior years With the license expansion, the per ton rate increased 25% and volumes substantially increased in 2019 to over \$2.6 million What this resource funds should be carefully considered, because while it will likely last more than a few years, it will eventually terminate Utilizing this resource for recurring expenditures will challenge future budget decisions when it eventually ends

Residential Growth

Over the past ten years, residential valuation has stagnated, rising just 2 0% The recession of 2008 had longer impacts than many expected. The development activity increased in recent years, with several large developments in various stages of approval. Longer range, the City has the most developable land in the County and anticipates new subdivisions as economic activity increases again.

Commercial and Industrial Growth

Over the past ten years, commercial and industrial valuation has increased at an average annual rate of 0.9 %

In 2005, two TIF Districts (#3 & #4) were established on the eastern side of the City The two districts have equalized value tax increments of \$64 8 and \$52 6 million, respectively In 2016 a new District #5 was established to aid the Ballpark Commons project A Developers agreement was signed in Q1 2018. The project estimates \$125 million in new taxable development. In Q4 2018, TID6 was formed to aid the development of an industrial park on the southwest portion of the City. That project could generate \$54 million in new development. In Q4 of 2019, TID7 was created to aid the multi-family portion of Ballpark Commons development with estimated development of \$47 million.

Expansion of the commercial and industrial tax base is a goal of the City with respect to the overall tax rate. New TID creation in the last few years will aid in that Commercial development. Currently 75 7% of the City's property value is residential compared to 73 9% ten years ago. Future tax relief will need to come from industrial and commercial tax base expansion.

Organizational and Service Growth

2019 was a year where overall revenue of \$42 1 million grew 9 5% compared to last year Increased landfill siting fee revenues caused by the expanded license and Impact fee collections on new multi-family development drove the revenue increase

2019 and 2018 were revaluation years The last reassessment was done in 2010 Performing revaluations on a regular basis is in line with the Common Council policy to schedule more frequent revaluations to keep property values in line with current market values. The State determined that the local assessment, after reassessment, was 97% of fair value. The estimated actual value of City properties was approximately \$4.2 billion. The City has risen to the third largest city in Milwaukee County based upon equalized value.

The challenge for the operating departments in 2019 was to continue to maintain service levels at a time of flat revenues and growth of 1 60% in new property base. The largest revenue resource – tax levy – is limited to this growth factor. Controlling expenditures at this level has challenged many Wisconsin cities, Franklin is not exempt

One threat the City faces is the challenge by larger retail property owners of assessed values Several large Commercial property owners have successfully challenged their assessed values, this places shifts the property tax burden to the residential tax base

Internal Controls

The City's internal control structure is subject to ongoing evaluation by management The City is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with laws, regulations and good financial policies The results of the City's audit for the fiscal year ended December 31, 2019 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws or regulations

As a recipient of federal and state financial assistance, if the level of grant expenditures exceeds an established level, currently \$750,000, a single audit of grants is required. The City was not required to have a single audit of grants in 2019 and the last single audit was in 2010.

Financial Planning

Long range financial planning is in place, especially for the capital funds and debt service funds, to ensure that resources are in place to meet committed projects, that there is adequate funding for projects prior to their approval, and that adequate funding is in place for debt that has been or will be incurred, with an appropriate plan for repayment

Financial Policies

The City maintains policies on fund balance level debt levels and term, investment policies, budget forecasting policy and a capitalization policy. The City also takes advantage of policies that has new development to finance infrastructure needs caused by the new development via special assessments and impact fees. Conservative management and the enumerated policies above have served the City well. The existence of a fund balance enabled the fund balance to be utilized in 2009 during the revenue decline and replenished in 2010 and 2011 when revenue stabilized.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2018 The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports This was the 26th consecutive year that the City has received this award

In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR whose contents conform to program standards Such report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements

A Certificate of Achievement is valid for a period of one year We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements We will be submitting the CAFR to the GFOA to determine its eligibility for a 2019 Certificate

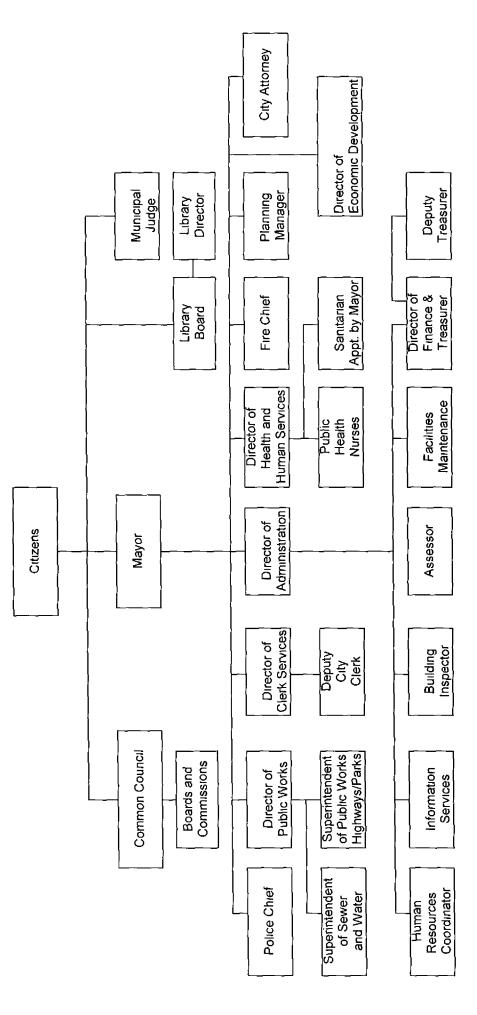

Acknowledgments

Preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the Finance Department staff Appreciation is also extended to all other City employees who contributed to its preparation Thanks are also extended to the Mayor, Common Council, and Finance Committee for their interest and support in planning and conducting the financial operations of the City in a responsible manner

Respectfully submitted,

Paul Rotzenberg,^v CPA Director of Finance & Treasurer

INDEPENDENT AUDITORS REPORT

To the Mayor and Common Council City of Franklin Franklin Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities the business-type activities each major fund and the aggregate remaining fund information of the City of Franklin Wisconsin as of and for the year ended December 31 2019 and the related notes to the financial statements which collectively comprise the City of Franklin's basic financial statements as listed in the table of contents

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors judgment including the assessment of the risks of material misstatement of the financial statements whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City of Franklin's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the City of Franklin's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

To the Mayor and Common Council City of Franklin

Opinions

In our opinion the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities the business-type activities each major fund and the aggregate remaining fund information of the City of Franklin Wisconsin as of December 31 2019 and the respective changes in financial position and where applicable cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America

Emphasis of Matters

As discussed in Note I City of Franklin adopted the provisions of GASB Statement No 84 *Fiduciary Activities* effective January 1 2019 Our opinions are not modified with respect to this matter

As discussed in Note I City of Franklin adopted the provisions of GASB Statement No 88 Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements effective January 1 2019 Our opinions are not modified with respect to this matter

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information although not a part of the basic financial statements is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Franklin's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Mayor and Common Council City of Franklin

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Franklin's basic financial statements. The Introductory Section and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and accordingly we do not express an opinion or provide any assurance on it

Prior Year Comparative Information

We have previously audited the City of Franklin's 2018 financial statements and we expressed unmodified audit opinions on the respective financial statements of the governmental activities the business-type activities each major fund and the aggregate remaining fund information in our report dated April 30 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31 2018 is consistent in all material respects with the audited financial statements from which it has been derived.

City of Franklin, Wisconsin Management's Discussion and Analysis (Unaudited)

As management of the City of Franklin (the "City"), the following offers readers of the City's financial statements an overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2019 Readers are encouraged to consider this information in conjunction with additional information contained in the letter of transmittal, which can be found on pages 1-5 of this report

Financial Highlights

- The assets and deferred outflows of the City exceeded its liabilities and deferred inflows as of December 31, 2019, by \$242 7 million (net position). The City now has a \$4 2 mil deficit (in Unrestricted Net Position), putting pressure on its ability to meet creditor obligations
- The City's total net position decreased by a net amount of \$563,000 Net investment in capital assets increased by \$15 8 million while unrestricted net position decreased by \$14 6 million and restricted net position decreased by \$14 6 million and restricted net position decreased by \$18 million Several major development projects continued in 2019, with the Ballpark Commons project receiving an additional \$3 2 million City support, the creation of TID6 for the Bear Development in the southwest portion of the City and Velo Village (TID 7) apartment complex connected to Ballpark Commons In addition, four residential developments were in various stages of completion, Aspen Woods, Ryan Wood, Park Circle and Safeway Reserve Several contributed \$1 1 million in new infrastructure to the City in 2019 Additionally, the Statesmen Estates multifamily development was completed
- The City's governmental funds reported, as of December 31, 2019, combined ending fund balances of \$45.6 million, an increase of \$8.4 million from the prior year Half the increase represents a \$4 million refunding bond issue, (with the debt payment in early 2020) The new development noted earlier generated \$2.7 million in new impact fees
- The Non-spendable fund balance of \$155,690 did not change much
- The restricted fund balances totaling \$31.5 million, (an increase of \$8.4 million), was driven by development activities with in Tax Increment Financing Districts, principally unspent debt proceeds and collections of impact fees
- The assigned fund balances in total of \$5 5 million decreased \$1 4 million from the prior year as the City Hall HVAC, roofing and entrance project completed
- The unassigned fund balance as of December 31, 2019 for the General Fund was \$8 2 million This represents approximately 32 percent of total 2019 General Fund expenditures The \$1 3 million increase was the result of un-expected building permit revenues increased investment income and reduced Public Safety expenditures
- The City's Business type activities generated a \$5 5 million surplus, including \$7 8 million of capital contributions (\$5 9 million from the City and \$1 9 million from developers) Depreciation on contributed assets reduced the surplus

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. These basic financial statements are comprised of three components 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The statement of net position presents information on all of the City's assets, deferred outflows, liabilities and deferred inflows, with the difference between the categories reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Table 1 (page 127) provides a ten-year history of Net Position.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows Thus, revenue and expenditures are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave) Table 2 (page 128 & 129) provides a ten-year history of the statement of activities

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-like activities) The governmental activities of the City include general government, public safety, public works, health & human services, culture & recreation and conservation & development The businesstype activities include the Franklin Water Utility and the Sanitary Sewer fund

The government-wide financial statements include not only the City itself (known as the primary government) but also a legally separate Community Development Authority for which the City is financially accountable Financial information for this blended component unit is reported as part of the financial information presented for the primary government itself

The government-wide financial statements can be found on Exhibits A and B (page 26 & 27) of this report

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories governmental funds, proprietary funds and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements By doing so, readers may better understand the long-term impact of the government's near-term financing decisions Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities

City of Franklin Wisconsin For the Year Ended December 31 2019

The City maintains 17 individual governmental funds information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures, and changes in fund balances for the General Debt Service and TIF Districts Funds that are all considered to be major funds Data from the remaining 14 governmental funds are combined into a single, aggregated presentation individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements later in this report.

The basic governmental fund financial statements can be found on Exhibits C, D, E and F (page 28 – 32) of this report These statements include a budgetary comparison of the General Fund

The City adopts an annual budget for its General Fund, Debt Service Fund, TIF District, Library Operating Fund, Library Auxiliary Fund, Solid Waste Fund, Tourism, Donations, Grant, Civic Celebrations, St Martin's Fair, Capital Outlay Fund, Equipment Replacement Fund, Street Improvement Fund, Capital Improvement Fund, Development Fund, Utility Development Fund, Sanitary Sewer Fund and the Franklin Water Utility A budgetary comparison statement has been provided for all governmental funds demonstrating compliance with their budgets

Proprietary funds

Proprietary funds are used to report the functions presented as business-type activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Franklin Water Utility, the Sanitary Sewer Fund and the Internal Service Fund.

The proprietary fund financial statements can be found on Exhibits G, H & I (page 33 – 37) of this report

Custodial funds

Custodial funds are used to account for resources held for the benefit of parties outside the government Custodial funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's programs. The custodial funds maintained by the City are the Property Tax Agency Fund, that records the tax roll and tax collections for the City and other taxing jurisdictions, a post-employment benefits trust to hold funds until needed to pay designated health benefits for eligible current and future retirees and other agency funds.

The basic custodial fund financial statements can be found on Exhibit J & K (page 38 & 39) of this report

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are found on pages 40 – 96 of this report.

Other information

In addition to the basic financial statements, notes and accompanying notes, this report also presents certain **required supplementary information** concerning the City of Franklin's progress in funding its retiree health obligations to eligible full time employees and its participation in the Wisconsin Retirement System and City of Franklin Defined Benefit Pension Plans Required supplementary information can be found on pages 97 - 102 of this report

City of Franklin Wisconsin For the Year Ended December 31 2019

The combining and individual fund financial statements and schedules section presents combining statements in connection with non-major governmental funds, a detailed budgetary comparison schedule for the General Fund, Special Revenue Capital Projects and TIF Funds to demonstrate compliance with the budget complementing the statement included in the basic governmental fund financial statements, and other information related to the individual funds are presented immediately following the required supplementary information Schedules 1 to 12 2 can be found on pages 103 - 125 of this report

Government-wide Financial Analysis

As noted earlier net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows exceeded liabilities and deferred inflows by \$242 million and \$243 million at the end of 2019 and 2018 respectively.

CITY OF FRANKLIN NET POSITION December 31, 2019 and 2018

The net position section includes an adjustment for capital assets owned by the business-type activities, but financed by the debt of the governmental activities Amounts will not cross-foot as a result

The largest portion of the City's net position (approximately 88 and 81 percent, in 2019 and 2018, respectively) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens consequently, net position is not available for future spending. Although the City's investment in its capital assets is reported net of related debt it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

City of Franklin Wisconsin For the Year Ended December 31 2019

Investment in capital assets accounted for \$213 million and \$197 million in 2019 and 2018 respectively of the year end net position

In 2019, the Ballpark Commons \$28 million infrastructure project was substantially completed In addition, the Statesman project was completed, as well as portions of three other developments Other significant projects included a City Hall \$1.8 million roof replacement, Heating Ventilating and Air conditioning replacement, a \$1.4 million roundabout at S 51st and Drexel Ave installed and a \$634,000 fire engine replacement

In 2018, construction in progress rose to \$6.6 million related to the Ballpark Commons project. Other significant additions were a second salt dome, and the River Park trail bridge

An additional portion of the City's net position (13% in 2019 and 2018) represent resources that are subject to external restrictions on how they may be used There were \$34.2 million and \$36.0 million (revised) respectively in those net positions that were restricted to specific purposes. A significant increase in residential development increased the Development Fund. (Impact fees) resource by \$2.9 million.

The remaining balance in unrestricted net position of a \$4 2 million deficit and \$10 4 million surplus (revised) in 2019 and 2018, respectively, may be used to meet the City's ongoing obligations to citizens and creditors. The significant reduction in unrestricted net position relates two developer grants. A \$5 million incentive was for a 180-unit apartment complex completed late in the year, and another \$5 9 million in site preparation costs at the Ballpark Commons project on an old landfill

City of Franklin Changes in Net Position For the Years Ending December 31, 2019 and 2018

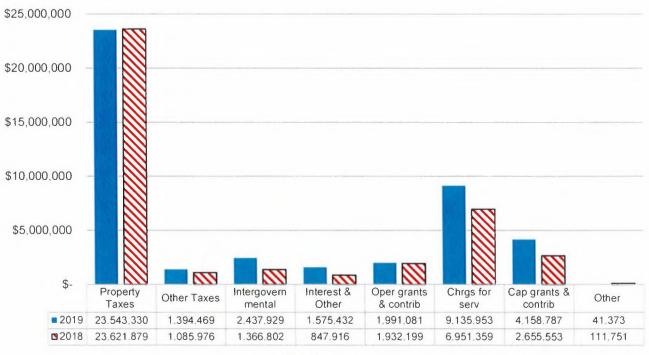

Governmental Activities

2019 saw development activity increase further, with a \$5.3 million grant to an apartment developer, over \$1 million of subdivision infrastructure contributions and the Ballpark Commons project winding up including \$5.9 of developer grants for site preparation, along with significant infrastructure investment. The Intergovernmental revenue increase relates to a storm sewer project at Rawson Homes \$3 million of developer impact fees added to total revenues. These developer grants will be recovered in the future when TID tax collections are realized. Interest costs are rising on the increased debt levels.

The 2018 Governmental Activities decrease of \$3 2 million is the result of developer grants in Ballpark Commons The City committed \$22 5 million of site preparation and infrastructure costs to the Developer with approximately \$14 4 million spent in 2018 Much of those payments were classified as developer's grants

Revenue by Source - Governmental Activities

■2019 ■2018

City of Franklin, Wisconsin For the Year Ended December 31, 2019

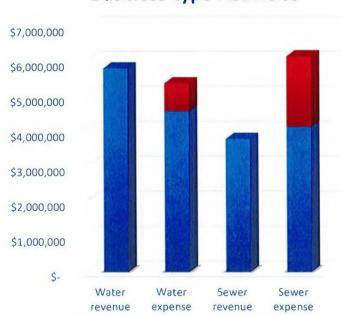

Business-type activities

The Development activity impacted the Business-type activities with capital contributions from both the Government and Developers. City TID activities contributed \$5.9 of water and sanitary sewer assets (principally at Ballpark Commons, the new light industrial park and a water main replacement in Rawson Homes), along with residential subdivision infrastructure. \$3.5 million of City debt was used to support Business-type assets.

2018 business-type activities decreased the City's net position by \$2.1 million.

Utility rates in both Water & Sewer do not recover the cost of contributed assets. As replacements of those assets occur, future rates will rise to recover the replacement costs. Water mains were replaced in the older Rawson Homes subdivision in 2019.

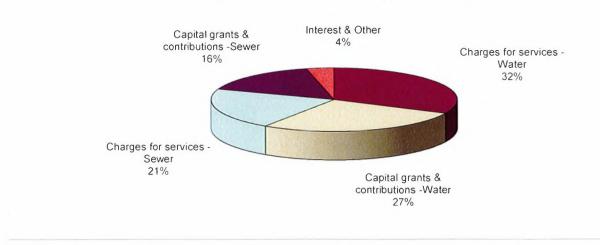

The following graph compares charges for services to the operating expenses for water and sewer activities.

Operating Revenue and Expense -Business-type Activities

Water and Sewer expenses can exceed revenue due to the current policy of including only depreciation from City spending on capital assets in the rate formula. The large amount of infrastructure that has been contributed is the reason for this policy. 84% of the Business-type assets have been contributed by developers or new growth resources (impact fees). When maintenance and replacement costs increase, this policy may need to be reevaluated. The City replaced \$1.3 million of water mains in 2019 and is planning a \$3.2 million sanitary sewer project in the next two years.

As shown on the following chart, the Business-type revenue includes capital grants and contributions, investment earnings and miscellaneous income in addition to charges for services (operating revenue).

Revenue by Source - Business-type Activities

2019 was a wetter than normal summer, and irrigation usage declined as a result, reducing water revenues as compared to 2018. Average residential usage per household continues to decline as the new development installs more water efficient appliances. 2019 Sewer rates increased 2.2% driven by Milwaukee Metropolitan Sewerage District processing costs, increasing sewer revenues.

2018 Water revenues decreased \$95,735 (1.6%) on lower volumes related to wetter weather conditions. Sewer revenues increased \$390,998 (11.8%) to recover a large cost increase from the sanitary sewer processor. There were no infrastructure contributions in 2018.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds

The focus of the City's **governmental funds** is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$45.6 million, an increase of \$8.4 million from the prior year. At year end the unassigned fund balance was \$8.2 million, an increase of \$1.4 million related primarily to the General Fund surplus. A small deficit in the TIF Fund represents a tax refund in TID#3.

The City has assigned fund balances for activities of the Capital Projects of \$5.5 million. In addition, \$132,393 of General Fund Balance has been assigned for purchase commitments into 2020.

Outside party restrictions have resulted in restricted fund balances

1) to pay debt service \$1 1 million -collections of special assessments increased the balance

2) for utility improvements - \$2.2 million - the increase resulted from utility assessment collections and interest on deferred assessment balances

3) for development purposes - \$8.8 million - two large multi-family projects resulted in significant impact fee revenues

4) for TIF Districts of \$17 3 million – \$6 million in new Debt resources during the year went unspent as the developer experienced delays, and a \$4 million refunding bond was sold in December, for which the refunding will occur in the first quarter of 2020 At the same time, the Ballpark Commons TID spent down debt proceeds from 2018 on infrastructure projects

- 5) for library services \$711,000
- 6) for Solid Waste services \$455,000
- 7) for Tourism activities \$470,000 and
- 7) for donations, health grant funds, and recreational activities totaling \$441,000

The City also has nonspendable fund balances to indicate that it is not available for new spending because it has already been committed for prepaid expenses and inventories and for advances to other funds (\$136,200) The General Fund provided a 10 year advance to the Water Utility in 2017 to finance an extraordinary contribution to the Public Works Retirement plan (in excess of the Actuarially Determined Contribution) This was financed out of the collection of the Sewer Fund advance

The **General Fund** is the chief operating fund of the City As of December 31, 2019, the total fund balance of the General Fund was \$8 6 million of which \$8 3 million was unassigned This unassigned fund balance represents approximately 32% of 2019 General Fund expenditures

The total General fund balance increased by \$1 3 million during 2019 Much of the surplus came from increased building permits and investment earnings Reduced Public Safety projects left \$600,000 of appropriations unspent

The **Debt Service Fund** has a total fund balance of \$1 1, restricted for the payment of debt service Much of the fund balance relates to collections of street special assessments

The TIF Districts Fund has total fund balance of \$17 2 million The TID#4 \$4 1 million fund balance will fund 2020 project costs Ballpark Commons (TID#5) sold a new \$3 2 million bond in 2019 using the proceeds on additional project costs TID#6 sold \$6 4 million of new bonds to fund infrastructure projects, however developer delays left \$5 4 million unspent Velo Village (TID#7) sold \$3 million of notes to fund a developer mortgage in early 2020

The **Nonmajor Governmental Funds** have a total fund balance of \$18.6 million Special Revenue fund balances totaled \$2.1 million Capital Project funds had fund balances totaling \$16.5 million half of which is in the Development Fund (Impact fees) The City issued \$2.2 million in new notes during 2019 to provide resources for the 2019 capital project programs

The City's **Proprietary Funds** provide the same type of information found in the government-wide financial statements, but in more detail

Unrestricted net position of the Water Utility at the end of the year amounted to \$2.8 million a decrease of \$531,130 from the prior year The Utility replaced the Rawson Homes water main spending \$1.3 million

Unrestricted net position of the Sanitary Sewer Utility at the end of the year amounted to \$1 2 million, a decrease of \$332,571 from the prior year The Utility performed significant maintenance costs on sewer lift stations

The enterprise funds financial statements can be found on Exhibits G, H and I (page 33 – 37) of this report

An Internal Service Fund providing resources related to employee health benefits had a \$728,353 surplus, increasing fund balance to \$2.5 million. The City introduced a high deductible option in 2019, with a larger than expected participation. As a result claims costs were reduced 22%. In addition, the Stop Loss carrier introduced a rebate program that generated \$122,000. The fund balance represents a significant percentage of annual health benefit costs (94%).

General Fund Budgetary Highlights

Revenue exceeded the amended budget by \$538 000 The Original budget was amended to add \$650,000 of revenues to recognize charges to developers for inspection services on expected donated infrastructure construction The largest revenue increase (\$273,000) came from construction permits on new development Investment earnings of \$510,000, exceeded expectations as short-term rates rose

Actual expenditures were less than amended budgeted by \$2 7 million (9 5% of the amended budget) The City introduced a High Deductible health plan option for employees in 2019 after the 2019 budget was adopted The appropriations for the High Deductible plan were included in Contingency and the 2019 budget was amended in the first quarter to re-align that employee benefit across activities The City established a \$1 8 million amended contingency That contingency was not spent Public Safety project costs were not spent and the retirement of inspection personnel resulted in unspent personnel appropriations

A \$1 3 million surplus compares favorably to the amended budgeted deficit of \$2 1 million Removing the \$1 8 million contingency noted above the amended budget deficit was more like \$0 3 million

Capital assets

The City's investment in capital assets for its governmental and business type activities as of December 31, 2019, amounts to \$246 5 million, net of accumulated depreciation. This investment in capital assets includes land buildings, improvements other than buildings and machinery and equipment

City of Franklin's Investment in Capital Assets

The total increase in the City's net investment in capital assets net of depreciation for the current fiscal year was \$14.6 million or 6.3% Development drove most of the increase, with infrastructure at Ballpark Commons (TID#5) the round-about at S 51st and Drexel Ave, a fire engine, City Hall roof replacement and Heating Ventilating and Cooling system replacement some of the larger projects

For further details on capital asset activity refer to Note 1(D)6 and Note 3(E) of the Notes to Financial Statements and Schedules 12 - 122 (page 124 - 126)

Long-term debt

State statutes limit the amount of general obligation debt a governmental entity may issue up to 5 percent of its total equalized valuation. At December 31, 2019, the City had general obligation note and bond issues outstanding totaling \$71.9 million. The current legal debt limitation for the City is \$218.0 million. The City's current outstanding general obligation debt is 33.0% of the statutory debt limit.

By City policy, outstanding general obligation debt is limited to 2% of total equalized value or \$87.2 million Outstanding debt represents 82% of this internal limit, leaving an internal debt limit margin of \$15.3 million. The Finance Committee reviewed the Debt Policy in July, 2019 and noted that supporting current development activity is likely to cause the City to exceed it internal debt limit and urged the Common Council to consider that when considering new debt issues.

The City's present rating from Moody's for its general obligation debt is "Aa2" The "Aa2 rating was affirmed with the 2019 debt issues

In May 2018 the City issued \$23 48 million in Note Anticipation Notes to finance projects in the Ballpark Commons development The City agreed to reserve this much of the General Obligation Debt limit for the future refunding of this issue

In 2019, City had four new debt issues two in February and two in December 2019A (a \$13 7 million Bond was issued to support a \$3 million grant in TID#3 and refund \$10 million of the 2018A NAN 2019B

(A \$6 3 million bond) was issued to support infrastructure projects in TID#6 2019C (a \$12 4 million bond) was issued to support \$5 2 of infrastructure at the Ballpark Commons development \$3 million to fund a second mortgage financing commitment to Velo Village and \$4 million to refund a portion of the 2018A NAN Finally, 2019D (a \$2 3 million note) provided resources for the 2019 Capital Improvement projects

City of Franklin's Outstanding Debt (All purposes)

Additional information of the City's long-term debt can be found in Note 3(H) (page 65-68) Schedule 5 (page 106) and Tables 11 – 13 (page 134 -137) in the statistical section of the report

In 2018 the City issued two Municipal Revenue Obligations to developers The first was a \$3.5 million incentive grant to the Ballpark Commons Developer payable over the life of the TID. The note carries a 5.5% interest rate. No interest or principal payments are being made on note at this time. The second was a \$2 million instrument payable over the remaining eight years of that TID. This note bears interest at 4.5% A \$202,000 payment was made in 2019. The remaining balance of all the notes at December 31, 2019 was \$5,189,000.

New Developer agreements in 2019 committed the City to two additional MROs a \$3 1 million grant in TID#6 issuable upon acceptance of donated infrastructure and a \$14 952 grant in TID#7 supporting the 265 unit Velo Village apartment project issuable upon construction initiation for the project

Other Changes of Significance

Post Employment Health Care Benefits

The City of Franklin provides retiree health care benefits to certain retiree groups from the date of retirement until age 65 Prior to 2008 the City's portion of health care cost was recognized as an expenditure in the period premiums were paid Funding for those costs was provided out of the current operating budget of the City This was referred to as financing on a pay as you go basis

The Government Accounting Standards Board (GASB) issued Statement #45 effective for the City of Franklin on January 1, 2008 that said that the expense of these benefits has to be recognized over the working lives of the employees The Common Council concluded that the City of Franklin should not only recognize the expense on its financial statements but should fund those amounts out of its general revenue starting in 2008 with the establishment of a section 115 trust

In 2017, the City adopted GASB 75 which treats OPEB liabilities similarly to pension obligations

More detailed information can be found in Note 4(C)

Economic Factors, Tax Rates and Next Year's Budgets

- The unemployment rate as of December 31 2019 for the City was 3 0% and Milwaukee County which includes the City, was 3 5% This compares with an unemployment rate of 3 5% for the State of Wisconsin
- The 2019 Budget assessed tax rate of \$5 43 was down from \$5 61 from the prior year Tax rates are declining as the State imposed levy limits are resulting in smaller increases in the tax levy, while property values are rising faster
- The City's tax levy rose from \$21 0 million the previous five years, to \$21 4 million in 2019 Much of the restrained total levy increase came by way a shift of debt service levy, which declined \$450 000 over that same period, shifting tax levy to operating and capital levy
- The 2020 tax levy increased another \$352 600 (1 7%) by another use of a one-time tool in state levy limits
- 2019 budgeted expenditures increased \$1 13 million (4 0%) This was made possible by the use of Charges for Services as an increasing resource in Capital Project funds and applying the prior tax levy resource to the General Fund
- This larger increase in expenditures compared to tax levy resources is not sustainable

Subsequent Events of Note:

- In March 2020 the US President, WI Governor and Franklin's Mayor declared a public health emergency It is too early to project the financial impact of this crisis on City finances The Common Council adopted a 2020 Budget Amendment appropriating \$250,000 of contingency to fight the disease
- Related to that health crisis, the US Equity markets declined significantly, and the City's Defined Benefit Plan administrator placed a \$750,000 call for additional one-time contributions. The Common Council authorized 2020 appropriations to support a \$1 million extraordinary contribution and also authorized the Director of Finance to make up to a \$750,000 contribution if necessary, returning to Council should additional contributions be required
- The 2020 Budget anticipated \$2.7 million of Landfill Siting revenues (Public Charges for Services) substantially supporting capital programs By April, 2020, this revenue stream began to decline, such that the Common Council considered reductions in 2020 capital program appropriations
- On April 6, 2020, the Common Council authorized the issuance of a \$14 952 million Municipal Revenue Obligation to Velo Village under the terms of a Developer's Agreement signed in October, 2019

Requests for Information

CITY OF FRANKLIN WISCONSIN Reconciliation of the Statement of Revenue Expenditures and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Year Ended December 31, 2019

Net change in fund balances total governmental funds	\$ 8 356 903
Amounts reported for governmental activities in the statement of activities are different because	
Governmental funds report capital outlays as expenditures However in the statement of activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense or losses when disposed of	
Capital outlay as reported in the governmental funds	15 923 366
Capital outlay contributed to business-type units	(5 934 954) 1 388 621
Items capitalized from non outlay accounts Depreciation	(3 727 753)
Net book value of assets disposed	(77 234)
Contributed capital assets are reported as revenues in the	
statement of activities	1 110 062
The issuance of long term debt (eg notes leases) provides current financial resources to governmental funds while the repayment of the principal on long term debt consumes current financial resources of government funds Neither transaction however has any effect on net position	
Principal paid on long term debt	11 405 000
Proceeds from long term debt net of premium	(35 058 931)
The Governmental Funds report Deferred Inflows for resources that are not available for activities	
Grants & Charges for Services	943 000
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the government funds	
Compensated absences pensions and OPEB Accrued interest payable and amortization of debt premium	(923 258) (209 293)
Revenue in the governmental funds that provides current financial resources but has been previously reported as revenue in the statement of activities	
Net special assessments	(59 448)
Internal service fund change in net position	 728 353
Net change in net position of governmental activities	\$ (6,135 566)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying summary of the City of Franklin's (the City') more significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. These policies as presented should be reviewed as an integral part of the accompanying financial statements. The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units. A summary of the significant accounting policies follows.

A REPORTING ENTITY

This report includes all of the funds of the City The reporting entity for the City consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization (2) it appoints a voting majority of the organization s governing body and there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government Certain legally separate tax exempt organizations should also be reported as a component unit If all of the following criteria are met (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government its component units or its constituents (2) the primary government or its component units is entitled to or has the ability to access a majority of the economic resources received or held by the separate organization and (3) the economic resources received or held by an individual organization that the primary government or its component units is entitled to or has the ability to otherwise access are significant to the primary government

Component units are reported using one of two methods discrete presentation or blending Generally component units should be discretely presented in a separate column in the financial statements A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists (2) the primary government and the component unit have substantively the same government has operational responsibility for the component unit (3) the component unit serves or benefits exclusively or almost exclusively the primary government rather than its citizens or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government. The City has not identified any component units required to be discretely presented.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A **REPORTING ENTITY** (continued)

Blended Component Unit

The Community Development Authority (Authority) was created by the City in 1992 to serve as a financing vehicle for certain Tax Incremental Districts (TID) development within the City That District was closed in 2012. The Authority is governed by a seven member board appointed by the Mayor and confirmed by the Common Council. Although it is legally separate from the City the Authority is reported as if it were part of the primary government because its sole purpose is to finance and manage certain TID development projects for the benefit of the City. The Authority had no financial transactions during 2019 nor does the Authority own any assets or liable for any debt. Therefore, no financial statements are presented in this report. The Authority does not issue separate financial statements.

B GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In January 2017 the GASB issued statement No 84 - *Fiduciary Activities* This statement establishes criteria for identifying fiduciary activities of all state and local governments for accounting and financial reporting purposes and how those activities should be reported. This standard was implemented January 1, 2019. As a result of the implementation of this standard the City of Franklin's Defined Benefit Retirement Income Plan Pension Trust has been included in the reporting of the City's Fiduciary Funds.

In March 2018 the GASB issued statement No 88 - *Certain Disclosures Related to Debt including Direct Borrowings and Direct Placements* This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments including direct borrowings and direct placements. This standard was implemented January 1, 2019

Government-Wide Financial Statements

The statement of net position (Exhibit A) and statement of activities (Exhibit B) display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business type activities. Governmental activities generally are financed through taxes intergovernmental revenue and other non-exchange revenue. Business-type activities are financed in whole or in part by fees charged to external parties for goods and services provided.

The statement of activities demonstrates the degree that direct expenses of a given segment or function are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. The City does not allocate all indirect expenses to functions in the statement of activities. Program revenue includes 1) charges to customers or applicants who purchase use or directly benefit from goods services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenue are reported as general revenue. Internally dedicated resources are reported as general revenue.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

Fund Financial Statements

Financial statements of the reporting entity are organized into funds with a fund considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of selfbalancing accounts that constitute its assets deferred outflows of resources liabilities deferred inflows of resources net position/fund equity revenue and expenditures/expenses. Funds are organized as major funds or nonmajor funds within the governmental and enterprise fund statements. An emphasis is placed on major funds within the governmental and enterprise categories.

A fund is considered major if it is the primary operating fund of the City or meets the following criteria

- a Total assets and deferred outflows liabilities and deferred inflows revenue or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type
- b The same element of the individual governmental fund or enterprise fund that met the 10 percent test is at least 5 percent of the corresponding total for all governmental and enterprise funds combined
- c In addition any other governmental or enterprise fund that the City believes is important to financial statement users may be reported as a major fund

Separate financial statements are provided for governmental funds proprietary funds and fiduciary funds with the latter being excluded from government-wide financial statements Major individual government funds and major individual enterprise funds are reported as separate columns in the fund financial statements

Major Governmental Funds

General Fund – accounts for the City's primary operating activities it is used to account for all financial resources except those required to be accounted for in another fund

- Debt Service Fund accounts for resource accumulation from taxes special assessments and other revenue along with payments made for principal and interest on long term debt other than enterprise fund debt
- TIF Districts Fund accounts for resource accumulation from tax increments and other revenue of the TID along with payments made for capital outlay other expenditures principal and interest on long-term debt obligations of the TIDs. Each TID is a sub fund of the TID Fund

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (continued)

Major Enterprise Funds (continued)

Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or (b) where the governing body has decided that periodic determination of revenue earned expenses incurred and/or net income is appropriate for capital maintenance public policy management control accountability or other purposes

- Water Utility Fund accounts for operations of providing water services to City residents and bills for those services
- Sanitary Sewer Fund accounts for the operations of providing sanitary sewer services for City residents and bills for those services

In addition the City reports

Nonmajor Governmental Funds

- Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally or policy restricted to expenditures for specified purposes. The funds include Library Operating Library Auxiliary Solid Waste Collection Tourism Commission St Martin's Fair Donation Civic Celebrations and Grant.
- Capital Projects Funds account for resources accumulated to be used for the purchase of equipment street replacement acquisition of land and the construction of capital improvement projects. The funds include Capital Outlay Equipment Replacement Capital Improvement Street Improvement Utility Improvement and Development.

Other Fund Types

Internal Service Funds – account for the payment by the City for active employees of group health and dental charges for services and stop loss insurance charges and the billing of departments or agencies of the City on a cost reimbursement basis for the services received

Custodial Funds – used to account for and report assets controlled by the City and the assets are for the benefit of individuals private organizations and for other governmental entities

Employee Benefit Trust Funds – used to account for and report resources that are required to be held in trust for the members and beneficiaries of defined benefit plans and other post-employment benefit plans

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting revenue is recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenue expenses gains losses assets deferred inflows liabilities and deferred outflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenue in the year that they are levied for

Taxes receivable for the following year are recorded as receivables and deferred inflows of resources. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Receivables are recorded as revenue when services are performed. At December 31, 2019, there were \$405,676 of anticipated future assessments. This is not reported as receivables because collection is subject to certain events occurring in the future and no formal repayment schedule has been established.

As a general rule the effect of interfund activity has been eliminated from the government wide financial statements. Exceptions to this general rule are charges between the City's Water Utility and Sanitary Sewer fund and various other functions of the government. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting Revenue is recorded when it is both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers grant revenue to be available if they are collected within 150 days of the end of the current fiscal period and all other revenue to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred except for unmatured interest on long-term debt claims judgments compensated absences and pension expenditures which are recorded as a fund liability when due and payable.

Property taxes are recorded the year levied as receivable and deferred inflow of resources and are recognized as revenue the next year when services financed by the levy are provided

Intergovernmental aids and grants are recognized as revenue in the period the City is entitled to the resources and the amounts are available. Amounts owed to the City are recorded as receivables. Amounts not available or received prior to the entitlement period are recorded as deferred inflows of resources.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (continued)

Fund Financial Statements (continued)

Special assessments levied for benefits to property owners for installation of sanitary sewers water mains roads and other improvements are recorded as revenue when they become measurable and available Annual installments due in future years are recorded as receivables and deferred inflows of resources

Revenue susceptible to accrual includes property taxes room taxes public charges for services and interest. Other general revenue such as permits fines and forfeitures licenses and miscellaneous revenue are recognized when received or when measurable and available under the criteria mentioned above

Deferred inflows of resources are reported on the governmental funds balance sheet Deferred inflows of resources arise from taxes levied in the current year that are for subsequent year's operations. For governmental fund financial statements unearned revenues arise where potential revenue does not meet both the measurable and available criteria for recognition in the current period. Unearned revenue arises when resources are received before the City has a legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods when both revenue recognition criteria are met or when the City has a legal claim to the resources the liability is removed from the balance sheet and revenue is recognized.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting

Proprietary funds distinguish operating revenue and expenses from non-operating items Operating revenue and expenses generally result from providing services and delivering goods in connection with the proprietary fund s principal operations. The principal operating revenue of the Water and Sanitary Sewer funds are charges to customers for sales and services provided. The rates billed in the Water Utility are approved by the Public Service Commission. Sanitary sewer charges are billed at rates established by City policy based on the charges received from the Milwaukee Metropolitan Sewerage District and local operation and maintenance expenses. The principal operating revenue of the internal service fund is charges to other funds for group health coverage.

Operating expenses for proprietary funds include the cost of sales and services administration and depreciation on capital assets Revenue and expenses not meeting this definition are reported as non operating revenue and expenses

All Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenditures/expenses during the reporting period. Actual results could vary from those estimates

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY

1 Cash and Investments

For purposes of the statement of cash flows the City considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents

The City of Franklin maintains two investment policies The first covers all funds except fiduciary funds for retiree health purposes. The objective of this policy is to generate current income consistent with safety and reasonable risk as defined under prudent person rules. As operating reserves, the quality liquidity and maturity structure of the portfolio are most important. The investment policy

- a Requires a minimum rating at time of purchase of Aa3 by either Moody's or Standard & Poor's
- b Limits an issuer to 10% or less and asset classes to 35% or less of the fair value of the portfolio with the exception of U S. Government Treasury and Agency securities that have the full faith guarantee of the U S. Government.
- c Specifies a minimum amount of cash equivalents be maintained an average life of the portfolio not exceeding 6 years and no individual issue with a maturity exceeding seven years at the date of purchase to limit interest rate risk
- d Limits investments highly sensitive to market changes through its duration and diversification policies to limit interest rate risk
- e Prohibits the investment in foreign owned securities
- f Limits derivative investments to those with a final maturity of seven years or less

In addition the City's investment policy restricts allowable investments to investments that follow state statutes section 66 0603 which limits investments to

- a Time deposits in any credit union bank savings bank trust company or loan association authorized to transact business in the state and maturing in three years or less
- b The Local Government Investment Pool (LGIP)
- c Bonds or securities issued or guaranteed by the federal government
- d Bonds or securities of any county city drainage district technical college district village town or school district of the State of Wisconsin Also bonds issued by a local exposition district a local professional baseball park district a local professional football stadium district a cultural arts district or by the University of Wisconsin Hospitals and Clinics Authority and the Wisconsin Aerospace Authority
- e Any security maturing in seven years or less and having the highest or second highest rating category assigned of a nationally recognized rating agency
- f Securities of an open-ended management investment company or investment trust subject to various conditions and investment options
- g Repurchase agreements with public depositories with certain conditions

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

1 Cash and Investments (continued)

The second investment policy is for its fiduciary fund for retiree health purposes. The policy

- a Requires the investment to be in a section 115 trust for retiree health purposes
- b Requires compliance with the prudent person standard
- c Requires asset allocation policy that considers the liability stream of benefits the relationship to current and projected assets the historical performance of capital markets and the perception of future economic conditions
- d Primary investment objectives are safety diversification and return
- e Allows investment in various asset classes
- f Limits investment in equities to 75% of total assets to be invested

The City manages the various risks in its cash and investments as follows

- a Custodial credit risk investments are held by a trustee or third party custodian
 - deposits in excess of FDIC insurance limits are maintained in the State LGIP or secured bank balances in
 - amounts of at least 75% of the year end cash balances
- b Credit risk securities purchased need to have an AA or better investment rating
- c Concentration of credit risk issuer or asset class not to exceed 10% of the market value of the portfolio with the exception of U S issued securities
- d Interest rate risk managed by limiting the length of maturity of newly purchased investments and limits the average life of the portfolio to control risk

Investments are stated at fair value which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note 3 A. No investments are reported at amortized cost

Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income (loss) investment income (loss) on commingled investments of various City Funds is allocated based on average investment balances

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw funds in total on one day since. At December 31, 2019, the fair value of the City's share of LGIP assets was substantially equal to the amount reported in these statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

2 Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the municipality taxes are collected for and remitted to the state government county government, three local school districts technical college district and metropolitan sewerage district. Taxes for all other governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying fiduciary funds statement of fiduciary net position within the reported Custodial Funds. The Solid Waste fee is billed and collected along with Property Taxes.

Property tax calendar – 2019 tax roll

Lien date and levy date	December 2019
Tax bills mailed	December 2019
Payment in full or	January 31 2020
First installment due	January 31 2020
Second installment due	March 31 2020
Third installment due	May 31 2020
Personal property taxes in full	January 31 2020
Final tax settlement with County	August 20 2020
Tax deed by County – 2019	-
Delinquent real estate taxes	October 2022

Accounts receivable have been shown net of an allowance for uncollectible accounts. No provision for uncollectible accounts receivable has been made for enterprise funds because of their right by law to place delinquent bills on the tax roll.

During the course of operations transactions occur between individual funds that may result in amounts owed between funds Short-term interfund loans are reported as due to and from other funds. Long term interfund loans are reported as advances from and to other funds.

Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government wide financial statements as internal balances.

In the general fund financial statements advances to other funds are offset equally by nonspendable fund balance which indicates that they do not constitute expendable available financial resources and therefore are not available for appropriation. Advances in all other governmental funds are classified in fund balance based on the availability of repayments for use

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

3 Inventories and Prepaid Items

Governmental fund inventory items except fuel inventory are charged to expenditures when purchased. The fuel inventory is recorded at cost on a first-in first-out basis using the consumption method of accounting. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased. Year-end inventory was not significant.

Proprietary fund inventories are generally used for construction and for operation and maintenance work. They are not for sale. Material and supplies on hand at year end are considered immaterial.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased

4. Restricted Assets

Mandatory segregation of assets are presented as restricted assets. Such segregation is required by agreements with external parties. Current liabilities payable from restricted assets are so classified. The Pension Asset if any is reported as restricted. This asset represents funds held by the Plan Trust, which can only be used to settle Plan obligations. The excess of restricted assets over current liabilities will be used first for equipment replacement. The remainder if generated from earnings is shown as restricted net position.

5. Benefit Obligations

For purposes of measuring the net pension obligations (assets) deferred outflows of resources and deferred inflows of resources related to pensions and pension expense information about the fiduciary net positions of the Wisconsin Retirement System (WRS) and the City of Franklin Defined Benefit Retirement Income Plan (DPW) and additions to/deductions from WRS and DPW s fiduciary net position have been determined on the same basis as they are reported by WRS and DPW For this purpose benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

5 Benefit Obligations (continued)

For purposes of measuring the net OPEB liability deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense information about the fiduciary net position of the City of Franklin Post Employment Benefits Trust and additions to/deductions from the City of Franklin Post Employment Benefits Trust s fiduciary net position have been determined on the same basis as they are reported by the City of Franklin Post Employment Benefits Trust For this purpose the City of Franklin Post Employment Benefits Trust recognizes benefit payments when due and payable in accordance with the benefit terms Investments are reported at fair value except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less which are reported at cost

6 Capital Assets

Government-Wide Statements

Capital assets which include property plant and equipment are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$25,000 for infrastructure assets with estimated useful lives of two years or more. Capital assets are recorded at historical cost or estimated historical cost if actual amounts are not available. Donated capital assets are recorded at acquisition value at the date of donation. Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material labor and overhead.

The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced retired or otherwise disposed of is deducted from plant accounts and generally together with removal costs less salvage is charged to the applicable function.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets estimated useful lives using the straight-line method of depreciation. The range of useful lives by asset type follows

Buildings and improvements	5 50 Years
Machinery and equipment	2-30 Years
Water and sewer infrastructure	20-100 Years
Infrastructure	20-90 Years

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)
 - 6 Capital Assets (continued)

Fund Financial Statements

In the fund financial statements capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same in the government-wide statements

7 Deferred Inflows of Resources and Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time

In governmental funds property taxes receivable special assessments and interest revenue not yet due are not recognized as revenue in the current period. For the government wide and proprietary fund type financial statements special assessments and interest revenue are recognized as revenue in the current period. This leaves property tax receivable as a deferred inflow of resources in the statement of net position.

Certain items affect the net pension obligation (asset) are amortized over the period determined to be affected by the change The balance at year end of these items is reported as deferred outflows of resources or deferred inflows of resources section of the statement of net position

8 Compensated Absences

Under terms of employment employees may earn compensatory time and are granted sick leave severance pay and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements. All vested compensatory time severance pay and vacation pay are accrued when incurred in the government-wide proprietary and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured. For example, a liability as a result of employee resignations or retirements are payable with expendable available resources.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

8 Compensated Absences (continued)

Payments for vested compensatory time severance pay and vacation pay will be made at rates in effect when the benefits are used Accumulated vested compensatory time severance pay and vacation pay liabilities are determined on the basis of current salary rates and include salary related payments. Vacation and compensatory time are used on a first-in first-out basis Accordingly all accrued amounts are considered to be due within one year. Severance due within one year is estimated based on employee age and expected retirement

9 Long-term Obligations/Conduit Debt

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government wide statements. The long-term obligations consist of notes and bonds payable and accrued compensated absences.

Long term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debt (plus any premium) is reported as other financing sources and payments of principal and interest are reported as expenditures. The proprietary fund accounting is the same as it is in the government wide statements.

For the government-wide statements and proprietary fund statements bond premiums and discounts are amortized over the life of the issue using the interest rate method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

The City has approved issuance of industrial development revenue bonds (IDRB) for the benefit of private business enterprises IDRB's are secured by mortgages or revenue agreements on associated projects of the business enterprises. The IDRB's do not constitute indebtedness of the City. Accordingly, the bonds are not reported as liabilities in the financial statements. Two series of Industrial Revenue Bonds originally issued with an aggregate principal amount of \$8,375,000 are outstanding with a December 31, 2019 balance of \$4,025,000.

10 Claims and Judgments

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the government funds. If they are not to be liquidated with expendable available financial resources no liability is recognized in governmental fund financial statements. The related expenditure is recognized when the liability is liquidated. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred. There were no significant claims or judgments at year end.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

11 Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components

- a Net investment in capital assets Consists of capital assets net of accumulated depreciation reduced by the outstanding balances of bonds mortgages notes or other borrowings that are attributable to the acquisition construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition or improvement of those assets or related debt are also included in this component of net position.
- b Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors grantors contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation and includes restricted assets reduced by liabilities related to those assets. Generally a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported
- c Unrestricted net position The net amount of the assets deferred outflows of resources liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position

The net position section includes an adjustment for capital assets owned by the business type activities column but financed by the debt of the governmental activities column. The amount is a reduction of net investment in capital assets and an increase in unrestricted' net position shown only in the total column. A reconciliation of this adjustment is as follows.

	Governmental Activities	Business-type Activities	Adjustment	Total
Net investment in capital assets	\$ 123 769 857			
Unrestricted	(11 675 211)	· · · · · · · · · · · · · · · · · · ·	3 504 400	(4 173 375)

When both restricted and unrestricted resources are available for use it is the City's policy to use restricted resources first then unrestricted resources as they are needed

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

11 Equity Classifications (continued)

Fund Statements

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitation on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest decision making authority. The governing council is the highest level of decision making authority for the government that can by adoption of an ordinance prior to the end of the fiscal year commit fund balance. Once adopted the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation. The City does not report any committed fund balance.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing council (Common Council) has by resolution authorized the Director of Finance & Treasurer to assign fund balance (Resolution 2014 7025). The Common Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments assignments generally only exist temporarily. In other words as additional action does not normally have to be taken for the removal of an assignment. Conversely as discussed above an additional action is essential to either remove or revise a commitment

When committed assigned and unassigned resources are available for use it is the City's policy to use committed resources first then assigned resources and then unassigned resources as they are needed

The City has adopted a fund balance policy (Res 2016-7216) for all governmental funds supported by tax levy as follows the ratio of year end fund balance to current year Expenditures shall target a range between 20 and 30% The amount of Fund Balance will be taken into consideration when establishing the following year's budget At least 15% of the succeeding year expenditure budget be maintained for working capital Any non-spendable fund balance of the General Fund shall be excluded from the ratio As of the year ended December 31 2019 the City exceeded the 30% upper level by 3 5%

D ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY (continued)

12 Comparative Data

The basic financial statements include comparative data for the prior year for individual enterprise funds in the fund financial statements in order to provide an understanding of the changes in financial position and operations of these funds. This comparative data is not at the level of detail required for a presentation in conformity with general accepted accounting principles. Accordingly such information should be read in conjunction with the City's financial statements for the year ended December 31. 2018 from which the data was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1 C with the exception of encumbrances transfers from the General Fund to Special Revenue Funds and tax equivalent from the Water Utility Actual (budgetary basis) expenditures presented reflect actual (GAAP) expenditures adjusted for expenditures budgeted under the prior period and encumbrances expected to be liquidated under the current period budget Actual (budgetary basis) revenue presents the tax equivalent from the Water Utility as tax revenue while GAAP basis statements present this item as a transfer

A budget has been adopted for the General Debt Service TID #3 TID #4 TID #5 Library Operating Library Auxiliary Solid Waste Collection Civic Celebrations St Martin's Fair Donations Grant Tourism Capital Outlay Equipment Replacement Capital Improvement Street Improvement Utility Improvement Development Sanitary Sewer and Water Utility funds

The budget amounts presented include any amendments made during the year. The City may authorize transfers of budget amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two thirds vote of the Common Council Supplemental appropriations during the year were not significant. Appropriations lapse at the end of the year unless specifically carried over. Carryovers to the following year were not significant. Budgets are adopted for personnel and non personnel expenditures at the function level.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (continued)

B. LIMITATIONS ON THE CITY'S TAX LEVY

Wisconsin law limits the City's future tax levies Generally, the City is limited to its prior tax levy dollar amount (excluding TIF Districts and Debt Service Levy), increased by the greater of the percentage change in the City's equalized value due to new construction or zero percent Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The City is required to reduce its allowable levy by the estimated amount of fee revenue increase it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

C. EXCESS EXPENDITURES OVER APPROPRIATIONS

The City controls General Fund expenditures at the Department personnel and non-personnel level (e.g. police personnel) Other funds are controlled activity level. For the year ended December 31 2019 the following funds had expenditures exceeding budget

Fund/Function	E	Budget penditures	•		Ex	Excess Expenditures Over Budget	
General Fund							
Public Health - Non-Personnel	\$	73 250	\$	75 056	\$	1 806	
Debt Service							
Interest	\$	1 35 188	\$	135 338	\$	150	
Library Auxiliary Fund

Culture and recreation	\$	52 756	\$	53,339	\$	583	
Grant Fund							
Public Safety	\$	6,000	\$	6 299	\$	299	

NOTE 3 - DETAILED NOTES ON ALL FUNDS

A. CASH AND INVESTMENTS

The City maintains a cash and investment pool that is utilized by all funds Each fund's portion of this pool is displayed on the statement of net position and balance sheet as cash and investments of the City In addition, investments are separately held by several of the funds

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing) In addition, if deposits are held in institutions outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

A. CASH AND INVESTMENTS (continued)

The City's bank accounts are also insured by the State of Wisconsin Deposit Guarantee Fund in the amount of \$400,000 per financial institution. However, although the fund had reserves available at December 31, 2019, the future availability of resources to cover the losses cannot be projected because provisions of the 1985 Wisconsin Act 35 provided that the amount in the fund will be used to repay public depositors for losses until the appropriation is exhausted at which time the fund is abolished. This coverage has not been considered in computing custodial credit risk.

The City maintains a collateral arrangement with its main bank to provide collateralization in excess of deposits maintained at the bank. The collateral is maintained in the form of a letter of credit from the Federal Home Loan Bank of Cincinnati in the amount of \$20,000,000

The City maintains both Non-FDIC insured and collateralized balances with an investment manager that deposits funds with US Banks. The funds are held in accounts. As Agent for its Customers. The manager utilizes FDIC insurance third party insurance and Federal Home Loan Bank letters of credit as collateral for balances.

Cash and investments as shown on the December 31 2019 statement of net position are subject to the following risks

	Carryır Value	•	Bank	& Investment Balances	Risks

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

A CASH AND INVESTMENTS (continued)

Custodial Credit Risk For deposits - Custodial credit risk is the risk that in the event of a financial institution failure the City's deposits may not be returned to the City' As of December 31, 2019 none of the City's total bank balances were uninsured and uncollateralized and therefore exposed to custodial credit risk. For investments – Custodial credit risk is the risk that in the event of the failure of the counterparty the City will not be able to recover the value of its investments or collateral securities in the possession of an outside party. All of the City's investments have a triparty relationship with the investments held by a party independent of the party managing the investment

Credit Risk Credit risk is the risk that an issuer or other counterparty will not fulfill its obligation. The City's policy requires a minimum credit rating of Aa3 at time of purchase. The City's fixed income investments subject to credit risk include agencies securities corporate asset backed securities corporate bonds government repurchase agreements and money market funds and were rated by Moody's Investor Service

As of December 31 2019 98% of the fixed income investments were in rated fixed income investments and subject to credit risk. The ratings as a percentage of the total investment portfolio were as follows. As at 64% The portfolio makeup of fixed income investments was treasury and agency securities at 64%. Local Government Investment Pool at 11% and money market funds at 1% The Local Government Investment Pool is not rated. Equities and fixed income mutual funds held in trust at 24% make up the remainder of the investments and are not individually rated.

Concentration of Credit Risk Concentration of credit risk is the risk of loss attributed to a large investment position in a single issuer. As of December 31, 2019, no issuer other than U.S. Treasury and Agency securities that have the full faith guarantee of the U.S. government had a position of greater than ten percent of the portfolio.

Interest Rate Risk Interest rate risk is the risk that rising interest rates will have an adverse impact on the fair value of the investments in the portfolio. The longer the maturities in the portfolio the greater the risk of loss is in portfolio value.

The portfolio policy limits this risk by limiting the length of permitted investments and limits the purchase of investments highly sensitive to market changes

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

A CASH AND INVESTMENTS (continued)

As of December 31 2019 the City's investments exposed to interest rate risk were as follows

	Fair	Investment Maturity in years						
Investment type	Value	Less than 1	2 - 3	4 - 5	6-7			
U S treasuries and agencies Fixed income funds Total	\$ 17 180 237 6,569 381 \$ 23,749 618	\$ 6 557 472 575 255 \$ 7 132 727	\$ 10 622 765 748 521 <u>\$ 11 371 286</u>	\$	\$ - 4 830 987 \$ 4 830 987			

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

The valuation methods for recurring fair value measurements are as follows

Market approach – prices or other information from market transactions involving identical or similar assets

		As of Decem	iber 31 2019							
Investment Type	Level 1 Level 2 Level 3 Tota									
US treasuries and agencies	\$	\$17 180 237	\$	\$17 180 237

Fixed income funds	6 569 381			6 569 381						
Total	\$16 931 940	\$17 180 237	\$	\$34 112 177						

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

B RECEIVABLES

Receivables consist of accounts taxes notes and special assessments from citizens and others Receivables are reported net of uncollectible amounts. The reserve for bad debts principally for personal property taxes special assessments and ambulance revenue was \$101,866 at December 31, 2019. Other than the special assessment receivables all other receivables are expected to be collected within one year.

Governmental funds report unavailable or unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned At the end of the current fiscal year the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows

	Unavailable		Unearned		Total
Governmental funds					
Subsequent year property taxes	\$	-	\$ 26 531 924	\$	26 531 924
Impact fee note receivable		232 640	-		232 640

for governmental funds	\$	1 603 740	<u>\$ 26 531 924</u>	<u>\$</u>	28 135 664

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

C DUE FROM OTHER GOVERNMENTS

In 2011 the City entered into an intergovernmental cooperation agreement with another government for the construction and financing of the Ryan Creek Interceptor Sewer. The terms of this agreement include that the other government will reimburse the City for substantially all of the debt service costs resulting from the City taking on a State Clean Water Fund Loan. Those reimbursements will continue over the life of the loan ending in 2031. This is presented as due from other governments in the statement of net position. Annual principal and interest payments to maturity received as part of this agreement are as follows.

Year Ending	Business type Activities									
December 31		Principal	Interest							
2020	\$	1 275 272	\$	416 514						
2021		1 306 669		384 730						
2022		1 338 839		352 164						
2023		1 371 802		318 796						
2024		1 405 575		284 607						
2025 2029		7 564 314		879 993						
2030 2031		3 292 870		81 563						
Total	\$	17 555 341	\$	2 718 367						

D RESTRICTED ASSETS

In accordance with the City's ordinance enacting a sewer user charge system and regulations of the Department of Natural Resources the Sanitary Sewer Fund – an Enterprise Fund incorporated an equipment replacement charge as a component of the rate structure to be used for significant mechanical equipment replacement as required by the Wisconsin Department of Natural Resources Revenue generated from this charge is accumulated and used for replacement of certain equipment. The balance in this account at December 31, 2019 is \$480,000

F LEASE DISCLOSURES

OPERATING LEASES

The City has entered into several lease agreements with telecommunications companies wherein the City has agreed to allow the use of water utility property for the purpose of telecommunication relays Revenue from this activity totaled \$157 666 for the year ended December 31 2019 Future minimum lease payments receivable in conjunction with the leases are as follows

	 ernmental	Bu	siness-Type Activities		Total

Total	\$ 281,355	\$	241 238	<u>\$</u>	522 593

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

G INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS

Interfund receivables/payables result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur (2) transactions are recorded in the accounting system and (3) payments between funds are made. In all cases amounts are repaid within one year

There were no interfund receivables and payables at December 31 2019

Advances

The City of Franklin provides short and long term advances to its TIF Districts and Water Utility The amounts advanced are either from proceeds of a borrowing or from fund reserves. They are used to enable the TIF Districts to carry out approved project plans. The TIF Districts interest rate is based upon the interest rate incurred by the Debt Service Fund on its borrowings or the reinvestment rate available to other funds. The advances will be repaid as the TIF District resources are available. In 2017, the City made an advance payment on the Public Works Defined Benefit Pension Plan. In doing so: advanced \$155,700 to the Water Utility on a ten year note to aid the Water Utility portion of the payment. In 2019, the Development Fund advanced \$1,5 million to TIF District 7 as funding for a 10-year Mortgage to a Developer. The balances at December 31, 2019 were

		Development								
Payable Fund	General		Fund	Total			one year			
TIF Districts	\$ 13 000	\$	1 500 000	\$	1 513 000	\$	13 000			
Water Fund	123 200				123 200		16 750			
	<u>\$ 136 200</u>	<u>\$</u>	1 500 000	<u>\$</u>	1 636,200	\$	29,750			

NOTE 3 - DETAILED NOTES ON ALL FUNDS (continued)

G. INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS (continued)

Transfers

Generally transfers are used to (1) move revenue from the funds that collect them to the fund that the budget requires to expend them (2) move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund and (3) use unrestricted revenue collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations

Transfers as presented on the fund financial statements during the year ended December 31 2019 were as follows

		_		Tra	nsfers Out			
	 General Fund	De	bt Service Fund		lonmajor vernmental Funds	E	nterprise Funds	 Fund Totals
Transfers In								
General Fund	\$	\$		\$		\$	968 448	\$ 968 448

The City's statutory debt limit and margin of indebtedness at December 31 2019 are \$218 013 450 and \$146 143 109 respectively By City debt policy the debt limit and margin of indebtedness limit are \$87 205 380 (40% of the limit prescribed by law) and \$15 335 039 respectively

In 2018 the City issued a municipal revenue obligation (MRO) as part of a development agreement. The amount of the obligation was \$2 million and is payable to the developer solely from tax increments collected from a development in TID #3. A \$202,000 payment was made in 2019. The MRO bears interest at 4.5% payable March 1 annually. The balance of the MRO was \$1,689,000 at December 31, 2019.

In 2018 the City issued a municipal revenue obligation (MRO) as part of a development agreement The amount of the obligation was \$3.5 million and is payable to the developer solely from tax increments collected from a development in TID #5. The MRO bears interest at 5.5% payable March 1 annually. No payments have been made on the MRO. The balance of the MRO was \$3.5 million at December 31. 2019.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (continued)

H LONG TERM OBLIGATIONS (continued)

The obligations do not constitute a charge upon any funds of the City. In the event that future tax increments are not sufficient to pay off the obligations, the obligations terminate with no further liability to the City. Since the amount of future payments is contingent on the collection of future TID increments, the obligation are not reported as a liability in the accompanying financial statements. The balance of the outstanding MRO principal at year end was \$5,189,000

The City's outstanding direct borrowing and / or direct placement related to business-type activities of \$17 555 341 contain a provision that in an event of default outstanding principal and any accrued interest become immediately due and payable

In February 2019 the City issued a \$10 680 000 General Obligation Bond to provide the resources to pay \$10 000 000 of the principal balance on a \$23 480 000 Note Anticipation Note sold in May 2018

The 2018 NAN issue had the following objectives 1) to finance the City commitment on a TID project plan related to redevelopment of a closed landfill 2) provide long term financing for the estimated \$10 million sunk costs after the first year 3) provide flexibility on refunding the balance of the NAN as increment was constructed so that future debt service could match up with increment generation and 4) provide flexibility to retire the NAN should the developer abandon the project before completion

The \$10 000 000 was due on March 1 2020 under the terms of the NAN The NAN had a true interest cost of 3 2537% at time of sale. The refunding 2019 issue had a true interest cost of 3 2990% The 2019 Refunding Bond will result in \$2 922 727 of interest thru March 1 2032.

In December 2019 the City issued a \$4 045 000 General Obligation Bond to refund \$4 000 000 of the 2018 Note Anticipation Notes on March 1 2020 (the earliest call date for the 2018 NAN) The refunding issue has a true interest cost of 2 6477% Had the refunding not been initiated the City would have paid \$448 000 of interest on the NANs until the final due date of March 1 2023 The refunding Bonds have a final due date of March 1 2035 and includes \$1 006 950 of interest over the term of the bonds

NOTE 4 - OTHER INFORMATION

A DEFINED BENEFIT PENSION PLANS

Wisconsin Retirement System (Protective Occupation Employees only)

General Information about the Pension Plan

Plan description The WRS is a cost-sharing multiple-employer defined benefit pension plan WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin local government and other public employees. All employees initially employed by a participating WRS employer on or after July 1. 2011, and expected to work at least 1.200 hours a year (880 hours teachers and school district educational support employees) and expected to be employed for at least one year from employees date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR) which can be found at http://etf.wi.gov/publications/cafr.htm

Vesting For employees beginning participation on or after January 1 1990 and no longer actively employed on or after April 24 1998 creditable service in each of five years is required for eligibility for a retirement annuity Participants employed prior to 1990 and on or after April 24 1998 and prior to July 1 2011 are immediately vested Participants who initially became WRS eligible on or after July 1 2011 must have five years of creditable service to be vested

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

General Information about the Pension Plan (continued)

Benefits provided. Employees who retire at or after age 65 (54 for protective occupation employees 62 for elected officials and executive service retirement participants if hired on or before 12/31/2016) are entitled to retirement benefit based on a formula factor their average earnings and creditable service

Final average earnings is the average of the participant's three highest annual earnings period Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions with interest if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit

The WRS also provides death and disability benefits for employees

Post-retirement adjustments The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s 40 27 Wis Stat An increase (or decrease) in annuity payments may result when investment gains (losses) together with other actuarial experience factors create a surplus (shortfall) in the reserves as determined by the system's consulting actuary Annuity increases are not based on cost of living or other similar factors. For Core annuities decreases may be applied only to previously granted increases. By law Core annuities cannot be reduced to an amount below the original guaranteed amount (the 'floor') set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows

NOTE 4 - OTHER INFORMATION (continued)

Wisconsin Retirement System (continued)

Year	Core Fund Adjustment	Variable Fund Adjustment
2009	(2 1)	(42 0) [%]
2010	(1 3)	(22 0)
2011	(1 2)	110
2012	(7 0)	(7 0)
2013	(96)	90
2014	4 7	25 0
2015	29	2 0
2016	0 5	(5 0)
2017	2 0	4 0
2018	24	17 0

General Information about the Pension Plan (continued)

Contributions Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees including Teachers. Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category merged into the General Employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period the WRS recognized \$973 134 in contributions from the employer

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Contribution rates as of December 31 2019 are

Employee Category	Employee	Employer
Protective with Social Security	6 7%	10 7%

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

At December 31 2019 the City reported a liability of \$3 258 799 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31 2018 and the total pension asset—<u>liability</u> used to calculate the net pension liability was determined by an actuarial valuation as of December 31 2017 rolled forward to December 31 2018. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31 2018, the City's proportion was 0.09159883%, which was an increase of 0.00378347% from its proportion measured as of December 31 2017.

For the year ended December 31 2019 the City recognized pension expense of \$2 097 674 which includes amounts paid to WRS related to duty disability payments

At December 31 2019 the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources

	 rred Outflows Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 2 538 111	\$	4 486 467
Changes in assumptions	549 314		
Net differences between projected and actual earnings			
on pension plan investments	4 759 253		
Changes in proportion and differences between employer			
contributions and proportionate share of contributions	18 308		35 441
Employer contributions subsequent to the measurement date	 1 380 924		
Total	\$ 9 245 910	\$	4 521 908

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

\$1 380 924 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31 2020 Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows

	Deferred Outflows of			
	Resources and Deferred			
Year ended December 31	Inflows	of Resources (net)		
2020	\$	1 220 667		
2021		296 602		
2022		526 465		
2023		1 299 344		

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Actuarial assumptions The total pension (asset)-liability in the December 31 2018 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement

Actuarial Valuation Date	December 31 2017			
Measurement Date of Net Pension Liability (Asset)	December 31 2018			
Actuarial Cost Method	Entry Age Normal			
Asset Valuation Method	Fair Value			
Long Term Expected Rate of Return	7 0%			
Discount Rate	7 0%			
Salary Increases				
Inflation	3 0%			
Seniority/Merit	01% 56%			
Mortality	Wisconsin 2018 Mortality Table			
Post-retirement Adjustments*	1 9%			

* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return actuarial experience and other factors. 1.9% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2018 that covered a three-year period from January 1 2015 to December 31 2017 Based on this experience study actuarial assumptions used to measure the Total Pension Liability changed from prior year including the discount rate long term expected rate of return post retirement adjustment wage inflation rate mortality and separation rates The Total Pension Liability for December 31 2018 is based upon a roll-forward of the liability calculated from the December 31 2017 actuarial valuation

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Long-term expected return on plan assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table.

Core Fund Asset Class	Current Asset Allocation %	Long-Term Expected Nominal Rate of Return %	Long Term Expected Real Rate of Return %
Global Equities	49%	8 1%	5 5%
Fixed Income	24 5	40	1 5
Inflation Sensitive Assets	15 5	38	1 3
Real Estate	9	65	39
Private Equity/Debt	8	94	6 7
Multi-Asset	4	6 7	4 1
Total Core Fund	110	73	4 7
Variable Fund Asset Class			
US Equities	70	76	50
International Equities	30	8 5	59
Total Variable Fund	100	8 0	5 4

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table

New England Pension Consultants Long Term US CPI (Inflation) Forecast 2 5%

Asset allocations are managed within established ranges target percentages may differ from actual monthly allocations.

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

Wisconsin Retirement System (continued)

Pension LiabilitiesLiability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Single discount rate A single discount rate of 7 00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7 00% and a long term bond rate of 3 71%. Because of the unique structure of WRS the 7 00% expected rate of return implies that a dividend of approximately 1 9% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions the pension plan s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the city's proportionate share of the net pension liability (asset) to changes in the discount rate The following presents the city's proportionate share of the net pension liability (asset) calculated using the discount rate of 7 00 percent as well as what the city's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage-point lower (6 00 percent) or 1 percentage-point higher (8 00 percent) than the current rate

	1% Decrease to		Current Discount		1% Increase to	
	Discount Rate		Rate		Discount Rate	
	(6,00%)		(7 00%)		(8 00%)	
Citys proportionate share of the net	_					
pension liability (asset)	\$	12 950 809	\$	3 258 799	\$	(3 947 962)

Pension plan fiduciary net position Detailed information about the pension plan s fiduciary net position is available in separately issued financial statements available at <u>http://etf.wi.gov/publications/cafr.htm</u>

At December 31 2019 the city reported a payable to the pension plan of \$184 066 which represents contractually required contributions outstanding as of the end of the year

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

City of Franklin Defined Benefit Returement Income Plan

General Information about the Pension Plan

Plan Description The City is also a participant in the City of Franklin Defined Benefit Retirement Income Plan a single employer defined benefit pension plan covering eligible public works employees The assets of this Plan are administered by Principal Life Insurance Company An annual financial report may be obtained by writing to the plan administrator at Principal Financial Group P O Box 9693 Des Moines IA 50306-9396

Vesting – Participants with five years of credible service are 50% vested in the plan. Upon reaching 10 years of credible service participants are fully vested in the plan.

Benefits provided – The City of Franklin Defined Benefit Retirement Income Plan provides retirement benefits to former bargaining employees of the City that are not covered under Wisconsin State Pension Plan (Wisconsin Retirement System) or who are regular part time employees as defined by Civil Service and who have a minimum of 6 months of service Employees who retire at or after age 60 are entitled to receive an unreduced retirement benefit

The factors influencing the benefit are (1) average compensation at retirement (2) years of creditable service and (3) a formula factor

Average compensation at retirement is the average of the participant's three highest consecutive years earnings out of the ten latest years prior to retirement. Creditable service is the creditable current and prior service expressed in years or fractional partial years for which a participant receives earnings. The formula factor is a standard percentage based on the plan provisions.

Employees may retire at age 55 with a minimum of 10 completed years of service and receive reduced benefits Employees terminating covered employment before becoming eligible for a retirement benefit may receive either normal retirement benefits at normal retirement date or a lump-sum cash payment of participant's vested accumulations

The plan also provides death and disability benefits for employees

NOTE 4 - OTHER INFORMATION (continued)

A DEFINED BENEFIT PENSION PLANS (continued)

City of Franklin Defined Benefit Retirement Income Plan (continued)

General Information about the Pension Plan (continued)

Participating employees - Membership in the plan as of date of study consisted of the following classes of participants

Active employees	29
Terminated vested participants	11
Retirees	26
Totai	66

Contributions Contribution requirements are established through action of the City Council and may be amended only through city ordinance Employees make a non elective and nondiscretionary pension contribution that is equal to 8 2% of their payroll. The City contributes all remaining amounts necessary to fund the pension plan. During the reporting period contributions of \$251,009 were made by the City to the plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31 2019 the City reported a liability of \$2 157 999 for its net pension liability. The net pension liability was measured as of December 31 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31 2018. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date.

A. DEFINED BENEFIT PENSION PLANS (continued)

City of Franklin Defined Benefit Retirement Income Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The \$176 603 reported as deferred outflows related to pension resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31 2020 Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows

	Deferred Outflows of		
	Resources and Deferred		
Year Ended December 31	Inflows of	Resources (net)	
2020	\$	734 856	
2021		480 649	
2022		163 740	
2023		201 787	

Actuarial assumptions - The pension liability in the December 31 2018 actuarial valuation was determined use the following actuarial assumptions applied to all periods in the measurement

Actuarial Valuation Date	December 31 2018
Measurement Date of Net Pension Liability (Asset)	December 31 2018
Actuarial Cost Method	Entry Age
Asset Valuation Method	Market Value
Long Term Expected Rate of Return	6 50%
Discount Rate	5 93%
Salary increase - Inflation	2 25%
Salary increase - Seniority/Merit	4 00%
Mortality	2019 IRS Prescribed Mortality - Optional
	Combined Table for Small Plans

Actuarial assumptions are based upon an experience study conducted in 2018 using historical experience. The net pension liability reported for fiscal year end December 31, 2019 was measured as of December 31, 2018, using the total pension liability that was determined by an actuarial valuation as of December 31, 2018.

NOTE 4 - OTHER INFORMATION (continued)

A. DEFINED BENEFIT PENSION PLANS (continued)

City of Franklin Defined Benefit Retirement Income Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Long-term Expected Return on Plan Assets The long-term expected rate of return on pension plan investments was determined using the weighted average rate based on the target asset allocation and the Long-Term Capital Market Assumptions. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table.

	Long Term Real	
Asset Class	Rate of Return	Target Allocation
US Equity - Large Cap	7 70%	34 50%
US Equity - Mid Cap	7 95%	4 00%
US Equity Small Cap	8 50%	2 00%
Non US Equity	7 95%	13 50%
Real Estate	5 55%	6 00%
Core Bonds	4 00%	37 00%
High Yield	6 45%	3 00%

Discount rate A discount rate of 5 93% was used to measure the total pension liability This single discount rate was based on the expected rate of return on pension plan investments of 5 93% and a long term bond rate of 3 97% The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate Based on these assumptions the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 4 - OTHER INFORMATION (continued)

A. DEFINED BENEFIT PENSION PLANS (continued)

City of Franklin Defined Benefit Retirement Income Plan (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Sensitivity of the net pension liability to changes in the discount rate – The following presents the City's net pension liability calculated using the discount rate of 5 93% as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (4 93%) or 1-percentage-point higher (6 93%) than the current rate

	1% Decrease to Discount Rate (4 93%)		Rate Rate		1% Increase to Discount Rate (6 93%)	
City's net pension liability	\$	3 428 409	\$	2 157 999	\$	1 080 562

For the year ended December 31 2019 the City recognized pension expense of \$522-445405 488

B. DEFINED CONTRIBUTION PLAN

Based on City ordinances all eligible City of Franklin non protective employees (except public works employees) participate in the City of Franklin Defined Contribution Plan (the Plan) The Plan assets are administered by the Principal Life Insurance Company

Employees after completing six months of service with the City are eligible to participate. The Plan requires the City to make periodic contributions to each participant's account equal to 10% of such participant's annual compensation. Employees are required to make contributions of 5% of wages. A participant's accrued benefit for City contributions is 100% vested and non-forfeitable upon death normal retirement early retirement or permanent and total disability as defined in the Plan. If employment is terminated for any other reason each participant's accrued benefit vests at various percentages based on years of service. During 20472019 total contributions of \$72.5588.408 or 10% of covered payroll were made. The City contributed \$2.532.44.204 and employees \$44.204286.029. The City may make amendments to the Plan.

NOTE 4 - OTHER INFORMATION (continued)

C POST-EMPLOYMENT HEALTH CARE BENEFITS

General Information About the OPEB Plan

Plan administration and description The City administers the City of Franklin Post Employment Benefits Trust (City OPEB Plan) a single-employer defined benefit OPEB plan that is used to provide post-employment health care benefits for all eligible full-time employees of the City Management of the City OPEB Plan is vested in the City s Common Council Separate financial statements are not prepared for the City OPEB Plan

Benefits provided City of Franklin eligible full time employees meeting minimum age and service requirements may receive group health care benefits at a reduced cost during the period from their normal retirement date until they reach age 65. This results in another post-employment benefit (OPEB) obligation for those groups. These groups commonly have higher medical costs than anticipated in the blended premium rates. That differential is referred to as an implicit rate subsidy.

Employees covered by benefit terms At December 31 2019 the following employees were covered by the benefit terms

Active employees	174
Inactive employees entitled to by not yet receiving benefits	
Retirees receiving benefits	26
Total	200

Contributions. Contribution requirements are established by either City ordinance or collective bargaining and may be amended only by the groups establishing the requirements. The City's periodic contribution is determined and fixed at the time of retirement. The retiree pays the balance of the periodic blended premium. The eligibility for the benefit follows.

Employee Group	<u>#</u>	City Amount	Age	Years Service
Non-represented	33	75% of Premium at Retirement	62	20
Police	71	75% of Premium at Retirement	53	15
Dispatch	13	75% of 2005 Premium	62	20
Fire	54	75% of Premium at Retirement	53	20
DPW	29	75% of Premium at Retirement	60	15

NOTE 4 - OTHER INFORMATION (continued)

C POST-EMPLOYMENT HEALTH CARE BENEFITS (continued)

Investments

Investment policy The City is authorized to invest funds of the City OPEB Plan in accordance with the City's investment policy for the City OPEB Plan

The long-term expected rate of return on OPEB plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity (maximum)	75%	10 0%
Domestic equity (minimum)	25	10 0
Fixed income (maximum)	50	2 5
Fixed income (minimum)	25	2 5

Concentrations All OPEB plan assets have been invested in bonds and equity securities See Note 3 A for additional information

Rate of return The annual money-weighted rate of return on investments net of investment expense for 2019 was 16 813 6%. The money weighted rate of return expresses investment performance net of investment expense adjusted for the changing amounts actually invested.

NOTE 4 - OTHER INFORMATION (continued)

C POST-EMPLOYMENT HEALTH CARE BENEFITS (continued)

Net OPEB Liability

The City's net OPEB liability was measured as of December 31 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date

Actuarial assumptions The total OPEB liability in the December 31 2019 actuarial valuation was determined using the following actuarial assumptions applied to all periods included in the measurement unless otherwise specified

Salary increases	2 00 percent average including inflation			
Investment rate of return	6 50 percent net of OPEB plan investment expense including inflation			
Healthcare cost trend rates	2021 and 2022 6 75% 2023 and 2024 6 25% 2025 and 2026 5 75% 2027 and 2028 5 25% and 2029+ 5 00%			

Mortality rates are a blend of the Death-In-Service and Retired Lives mortality rates from the Wisconsin Retirement System 2015-2017 Experience Study with the MP 2018 generational improvement scale (multiplied by 50%)

The actuarial assumptions used in the January 1 2020 valuation were based on the results of an actuarial experience study for the period January 1 2015 – December 31 2017

Discount rate The discount rate used to measure the total OPEB liability was 6.5 percent The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates over the next 40 years. This rate is a blend of expected earnings on Plan assets and the current yield for 20 year tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Thereafter	209 760				

Payable to the OPEB Plan

At December 31 2019 the City does not report a payable for any outstanding amount of contributions to the City OPEB Plan required for the year ended December 31 2019

NOTE 4 - OTHER INFORMATION (continued)

D CONTINGENCIES AND COMMITMENTS

The City at times is party to claims and legal proceedings. Although the outcome of such matters in not presently determinable, it is the opinion of City management and the City attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the City's financial position

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances if any would be immaterial

The City receives impact fees for new development projects. The fees are to be used to fund specific projects within a specific period of time. In the event the projects are not completed or the time period elapses, the City will be required to refund the impact fees to the current owners of properties that the fees were originally collected.

Funding for the operating budget of the City comes from many sources including property taxes grants and aids from other units of government user fees fines and permits and other miscellaneous revenue. The State of Wisconsin provides a variety of aid and grant programs that benefit the City. Those aid and grant programs are dependent on continued approval and funding by the Wisconsin governor and legislature, through their budget process. Any changes made by the State to funding or eligibility of local aid programs could have a significant impact on future operating results of the City.

NOTE 4 - OTHER INFORMATION (continued)

E RISK MANAGEMENT

The City is exposed to various risks of loss related to torts theft damage or destruction of assets errors and omissions natural disasters and workers' compensation claims that the City carries commercial insurance. No significant reductions in insurance coverage occurred for any risk of loss in the past year and settled claims have not exceeded commercial coverage in any of the past three fiscal years.

The City also offers a group medical and dental insurance plan to employees for which the City is self-insured. This activity is accounted for in the City's Self Insurance Internal Service Fund Group medical and dental costs are charged to City departments and retirees participating in the program. A third party administrator handles claims payments. The City carries stop loss insurance for claims in excess of \$75,000 per year per individual and \$75,000 per year per group Liabilities are reported when it is probable that claims have occurred and the amount of the claim can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR.)

Changes in the balance of claims payable for the years ended December 31 2019 and 2018 are as follows

	Balance			Current Claims			Balance		
Fiscal	Beginning of		an	d Changes	Claims		End of		
 Year	Year		In	Estimates	Payments		Year		
2019	\$	290 700	\$	2 537 281	\$	2 652 981	\$	175 000	
2018		290 700		3 412 999		3 412 999		290 700	

NOTE 4 - OTHER INFORMATION (continued)

F EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following

- Statement No 87 Leases
- Statement No 89 Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No 91 Conduit Debt Obligations

When they become effective application of these standards may restate portions of these financial statements

H SUBSEQUENT EVENT

In March 2020 the US President WI Governor and Franklin's Mayor declared a public health emergency. It is too early to project the financial impact of this crisis on City finances. The Common Council adopted a 2020 Budget Amendment appropriating \$250,000 of contingency to fight the disease.

Related to that health crisis the US Equity markets declined significantly and the City's Defined Benefit Plan administrator placed a \$750,000 call for additional one time contributions. The Common Council authorized 2020 appropriations to support a \$1 million extraordinary contribution and also authorized the Director of Finance to make up to a \$750,000 contribution if necessary returning to Council should additional contributions be required

The 2020 Budget anticipated \$2.7 million of Landfill Siting revenues (Public Charges for Services) substantially supporting capital programs. By April 2020, this revenue stream began to decline such that the Common Council considered reductions in 2020 capital program appropriations.

On April 6 2020 the Common Council authorized the issuance of a \$14 952 million Municipal Revenue Obligation to Velo Village under the terms of a Developer's Agreement signed in October 2019

CITY OF FRANKLIN, WISCONSIN NOTES TO REQUIRED SUPPLEMENTARY INFORMATION As of and for the Year Ended December 31 2019

NOTE 1 – PRESENTATION

The City is required to present the last ten years of data on each schedule however the standards allow the City to present as many years as are available until ten years are presented

NOTE 2 - WISCONSIN RETIREMENT SYSTEM

The data presented in the Schedule of Proportionate Share of the Net Pension Liability (Asset) for the Wisconsin Retirement System was taken from the reports issued by the Wisconsin Retirement System

Changes of benefit terms There were no changes of benefit terms for any participating employer in WRS

Changes of assumptions Actuarial assumptions are based upon an experience study conducted in 2018 using experience from 2015 – 2017 Based on the experience study conducted in 2018 actuarial assumptions used to develop Total Pension Liability changed including the discount rate long-term expected rate of return post-retirement adjustment wage inflation rate mortality and separation rates

NOTE 3 – CITY OF FRANKLIN DEFINED BENEFIT RETIREMENT INCOME PLAN

The data presented in the Schedule of Changes in Net Pension Liability and Related Ratios and Schedule of Contributions for the City of Franklin Defined Benefit Retirement Income Plan was taken from the reports issued by the actuary

Changes of benefit terms There were no changes of benefit terms

Changes of assumptions The following assumptions changed 1) the long term rate of return on plan assets has decreased from 6 75 to 6 5% 2) the discount rate has decreased from 6 75% to 5 93% 3) the inflation assumption has increased from 2 00% to 2 25% and 4) Salary projections have been updated from 3 00% to 4 00%

NOTE 4 - OPEB PLAN

The data presented in the Schedule of Changes in Net OPEB Liability and Related Ratios and the Schedule of Contributions for the City of Franklin Post Employment Benefit Trust was taken from the reports issued by the actuary

Changes of benefit terms There were no changes of benefit terms

Changes of assumptions The discount rate was reduced from 7 00% used in the previous actuarial study to 6.5 used in the current study

SUPPLEMENTARY INFORMATION

This page intentionally blank

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds account for the proceeds of specific revenue sources (other than debt service or major capital projects) that are restricted for specified purposes

Library Operating Fund – This fund accounts for the budgetary operation of the Library

Library Auxiliary Fund – This fund accounts for Library donations fines and forfeitures

Solid Waste Collection Fund – This fund accounts for solid waste collection activities

Donation Fund – This fund accounts for donations received for specific purposes

St Martin's Fair Fund – This fund accounts for activities related to the farmers/flea market held the first Monday of the spring and summer months and the Labor Day weekend

Civic Celebrations Fund – This fund accounts for activity related to the City's Fourth of July and other celebrations

Tourism Commission – The State mandated that certain portions of the Hotel Tax be dedicated for tourism promotion. The Common Council formed a Tourism Commission which determines how those funds are spent.

Grant Fund – The City reports its grant activities in this fund. Grant activities include Fire Department. Police Department. Health Department. Community Development Block Grants and miscellaneous grants received by the City that are not accounted for elsewhere.

Capital Projects Funds

Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds)

Capital Outlay Fund – This fund accounts for the departmental capital outlays These expenditures are funded by the tax levy normally are less than \$25 000 and are under the direction of the department supervisor

Equipment Replacement Fund – This fund accounts for the rolling stock replacement program that accumulates annual funding (from landfill siting fees) for replacement of vehicles and similar equipment in lieu of using borrowed monies

Capital Improvement Fund – This fund accounts for land acquisitions building projects and all public works projects and are usually funded with landfill siting revenues borrowed money or funding from some other source other than the tax levy

Street Improvement Fund – This fund accounts for the activities of the local road improvement program. Funding is provided by landfill siting fees and a portion of General Transportation Aids and an every other year local road improvement grant from the State

Utility Improvement Fund – This fund is used to account for water and sewer connection fees and special assessments that are used for water and sewer construction projects

Development Fund – This fund is used to account for impact fees restricted for use to capital improvements

Statistical Section

This part of the City of Franklin's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the basic financial statements note disclosures and required supplementary information says about the City's overall financial health

Financial Trends

These tables contain trend information to help the reader understand how the City s financial performance and well-being have changed over time

Revenue Capacity

These tables contain trend information to help the reader assess the City's most significant local revenue source the property tax

Debt Capacity

These tables present information to help the reader assess the affordability of the City s current level of outstanding debt and the City s ability to issue additional debt in the future

Demographic and Economic Information

These tables offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place

Operating Information

These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs

Sources Unless otherwise noted the information in these tables is derived from the Comprehensive Annual Financial Report for the relevant year. The City implemented GASB Statement 34 in 2003 schedules presenting government wide information include information beginning in that year.

NOLE

Revaluation year ** The City has three tax rates dependant upon a property's sewer status and the school district the property is located The total is shown for only the largest school district (Franklin) See Table 5 for assessed values by School and Sewerage District

The Budget year is the year following the fiscal year in which the taxes are levied In 2014 State law changed which provided Technical Colleges additional state aids reducing their tax levy approximately 35%

Source City of Franklin

Notes Collections in subsequent years are not shown because Milwaukee County annually purchases all of the City's outstanding delinquent real estate taxes Payment for the real estate taxes are received by the City every August pursuant to the County's settlement procedures Outstanding delinquent taxes represent personal property taxes which the City attempts further collection until March of the following year At that time the balances are charged back to each of the taxing jurnsdictions in proportion to the amounts levied Subsequent collections are insignificant and refunded to all taxing jurisdictions in relation to the amounts originally levied

Total collections may be greater than or less than the total levy in any year due to changes in outstanding delinquent taxes collection of prior year omitted taxes and Wisconsin Section 70 43 corrections

Debt information supplied by each taxing jurisdiction and applicable percentages from the State Department of Revenue Source

- Debt outstanding provided by each governmental unit and percentage determined by the Department of Revenue Overlapping governments are those that coincide at least in part with the geographic boundaries of the City This process recognizes that when considering the City's ability to issue and repay long term debt the entire debt burden borne by the resident and businesses should be taken into account However this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping district In 2009 Milwaukee County issued \$400 000 000 in pension obligation debt In 2013 Franklin Public Schools issued \$33 000 000 of Debt to renovate the high school - <</> Note

- In 2017 Franklin Public Schools issued \$41 390 000 to build a new middle school In 2018 Whitnat School District issues \$10 000 000 in school construction & repair costs In 2019 Oak Creek Franklin District issued \$60 9 million for school construction In 2019 Whitnal School District issued \$6 160 000 in support of school building additions and improvements
