WhyInterested:	I had never considered a volunteer role for local government, but I see just how much the work of local government and these volunteer roles impact my daily experience. I am no better than anyone else, but I am certainly able to use the brains in my head and feet in my shoes to support my community. And with the larger national political climate, I'm galvanized to try to contribute to my community. The Franklin Community Page on Facebook is typically how I've interacted with some of these local issues. The discourse there is very limited and devoid of context. I'd like to learn more about these issues, and getting involved how to start. The work of the Community Development Authority has a role in envisioning the future of where Franklin could be. I would like to be a part of that development. And, the Parks Board creates special moments within and for our community with Parks. Given my role as an educator, I could envision novel possibilities. ● Support the work of high performing teams across the content areas through embedded coaching around team-identified problems of practice ● Develop professional learning plan to embed literacy practices grounded in the science of reading within 6-12 classrooms ● Collaborate with district and building stakeholders to review current ELA curriculum, research the components of an ideal curriculum, and adopt a new ELA resource for 6-8th grades ● Design and implement the district New Teacher Mentoring program emphasizing supporting new-to-profession educators in developing strong instructional practice
DescriptionofDutiesJob1:	Conduct audit of current universal and specialized instructional practices, aggregate data for use in strategic
DescriptionofDutiesJob2:	

planning for professional learning and practice, and present to stakeholders Lead district equity team Professional Development Subcommittee in the designing and facilitating of district-wide professional development

Description of Duties Job 3:

● Assumed responsibility for instruction in the following areas: English 9, English 10, Honors English 11, Modern Literature, Creative Writing, Film Studies

Additional Experience:

I am a deep reader and critical thinker. I ask big questions and support teams in broadening their ideas of what could be possible. I am an effective communicator and coachable. If chosen as a volunteer for a committee, I will do my due diligence and be prepared for commitments I make. A team can count on me to be committed to the work. I also am an adjunct professor with the University of Wisconsin-Milwaukee with their graduate and undergraduate programming.

SANITARY SEWER EASEMENT

LEO at Franklin
S. 31st Street
Tax Key No. _____

THIS EASEMENT is made this _____ day of _____, 2026 by and between the **CITY OF FRANKLIN**, a municipal corporation of the State of Wisconsin, hereinafter referred to as “City,” and **FRANKLIN SFR OWNER, LLC**, a Delaware limited liability company, as owner (including successors and assigns of the City as may become applicable including the heirs, executors, administrators, successors and assigns of above owner as may be or may become applicable), hereinafter called “**Grantor**.”

WITNESSETH

WHEREAS, Grantor is the owner and holder of record Title to certain real property particularly described on Exhibit “A” which is attached hereto and incorporated herein (the **Property**); and

WHEREAS, the City desires to acquire a non-exclusive easement with the right of entry in and across a portion of the Property as the same is more particularly hereinafter described, with the right to build and construct and/or operate, maintain, repair, enlarge, reconstruct, relocate and inspect as may be or may become applicable the following facilities and appurtenances thereto, hereinafter collectively called the “**Facilities**,” in, upon and across said portion of the Property: a sanitary sewer, associated manholes, all as shown on the plan attached hereto as Exhibit “B.”

NOW, THEREFORE, in consideration of the grant of the easement hereinafter described, the initial installation and maintenance of the Facilities by the Grantor, and the City, and the payment of One Dollar (\$1.00) and other valuable considerations to the Grantor, the receipt whereof is hereby acknowledged, said Grantor, being the owner and person interested in the land hereinafter described, does hereby grant unto the City a perpetual, non-exclusive easement on that part of the Property in the West 1/2 of the Southeast quarter Section Twelve (12), Township Five (5), North, Range Twenty-one (21) East”, in the City of Franklin, Milwaukee County, Wisconsin, more particularly described on Exhibit “C” attached hereto (the “**Easement Area**”).

1. That said Facilities shall be maintained and kept in good order and condition by the City, and/or its contractors, at the sole cost and expense of the City. Responsibility for maintaining the ground cover and landscaping within the Easement area shall be that of the Grantor (including heirs, executors, administrators, successors, and assigns).
2. That in and during whatever construction, reconstruction, relocation, enlargement or repair work is or becomes necessary in constructing and/or maintaining of said Facilities, so much of the surface or subsurface of the Easement Area on the Property as may be disturbed will, at the expense of the City, be replaced in substantially the same condition and at substantially the same elevation as it was prior to such disturbance. However, the City shall indemnify and save harmless the Grantor from and against any loss, damage, claim, cost, injury or liability resulting from negligence or willful acts or omissions on the part of the City, its agents or employees in connection with said work involved in constructing and/or maintaining of said Facilities; provided that if the above loss, claim, cost, damage, injury or liability results from the joint negligence of parties hereto, then the liability therefore shall be borne by them in proportion to their respective degree of negligence; provided further, however, that these provisions are subject to the legal defenses available under law which the City or Grantor are entitled to raise, excepting the defense of so-called “sovereign immunity.”

3. That no structure may be placed within the limits of the Easement Area by the Grantor except that improvements such as walks, pavements for driveways and parking lot surfacing, limited utility equipment (conduits, pipes, etc.) and landscaping may be constructed or placed within the Easement Area.
4. That, in connection with the construction by the Grantor of any structure or building abutting said Easement area, the Grantor will assume all liability for any damage to the Facilities in the above described Easement Area. The Grantor will also save and keep the City clear and harmless from any claims for personal injuries or property damage caused by any negligence or willful acts or omissions of the Grantor or persons acting on behalf of the Grantor, arising out of the construction by the Grantor of any structure or building abutting the said Easement Area, and shall reimburse the City for the full amount of such loss or damage.
5. That no charges will be made against the Property for the cost of maintenance or operation of said Facilities on the Property. Whenever the Grantor makes application for a service connection associated with the services provided by virtue of the Facilities, the regular and customary service connection charge in effect at the time of the application shall be charged and paid. The Grantor shall be responsible for the routine maintenance of land on which the Easement is located.
6. The Facilities shall be accessible for maintenance by the City at all times. The Grantor shall submit plans for approval to the City Engineer for any underground installation within the Easement Area, which approval shall not be unreasonably withheld, conditioned or delayed.
7. That the Grantor shall submit plans for all surface alterations of plus or minus 1 foot or greater within the limits of said Easement Area. Said alterations shall be made only with the approval of the City Engineer of the City of Franklin, which approval shall not be unreasonably withheld, conditioned or delayed.
8. The City and Grantor shall each use, and take reasonable measures to cause their employees, officers, customers, agents, contractors and assigns to use, the Easement Area in a reasonable manner and so as not to obstruct or otherwise use the Easement Area in a manner that would unreasonably interfere with the use thereof by the other party hereto or its employees, officers, customers, agents, contractors and assigns.
9. The City and Grantor each hereby waives all rights of subrogation that either has or may hereafter have against the other for any damage to the Easement Area or any other real or personal property or to persons covered by such party's insurance, but only to the extent of the waiving party's insurance coverage; provided, however, that the foregoing waivers shall not invalidate any policy of insurance now or hereafter issued, it being hereby agreed that such a waiver shall not apply in any case which would result in the invalidation of any such policy of insurance and that each party shall notify the other if such party's insurance would be so invalidated.
10. Either party hereto may enforce this Easement by appropriate action, and should it prevail in such litigation, that party shall be entitled to recover, as part of its costs, reasonable attorneys' fees.
11. This Easement may not be modified or amended, except by a writing executed and delivered by the City and Grantor or their respective successors and assigns.

12. No waiver of, acquiescence in, or consent to any breach of any term, covenant, or condition hereof shall be construed as, or constitute, a waiver of, acquiescence in, or consent to any other, further, or succeeding breach of the same or any other term, covenant, or condition.
13. If any term or provision of this Easement shall, to any extent, be invalid or unenforceable under applicable law, then the remaining terms and provisions of this Easement shall not be affected thereby, and each such remaining term and provision shall be valid and enforceable to the fullest extent permitted by applicable law.
14. This Easement shall be construed and enforced in accordance with the internal laws of the State of Wisconsin.
15. Upon completion of use of the Easement Area for the specific use as a sanitary sewerage system, the City shall remove the Facilities and cause the prompt restoration to a smooth surface contour and neat condition restoring the Easement Area into a condition similar to the remaining parcel as described in Exhibit "A".
16. Upon completion of use of the Easement Area for the specific use as a sanitary sewerage system and the restoration of the Easement Area by the City, the easement shall be terminated by recording a release in recordable form with directions for delivery of same to Grantor at its last address given pursuant hereto, whereupon all rights, duties and liabilities created shall terminate.

APPROVAL	REQUEST FOR COUNCIL ACTION	MTG. DATE 8/18/2026
Reports & Recommendations	A Resolution Authorizing Certain Officials to Execute a Storm Water Facilities Maintenance Agreement and Storm Water Access Easement with Advenir Azora Development, LLC at LEO Cottages upon 7705 S 31st St (TKN: 786 9988 000,) 7631 S 31st St (TKN: 786 9987 000,) and 7721 S 31st St (TKN: 786 9992 000) Franklin, WI.	ITEM NO. ALD DIST. 3 H.4.

BACKGROUND

The City of Franklin, Milwaukee Metropolitan Sewerage District (MMSD), and Wisconsin Department of Natural resources (WDNR) require storm water management facilities for any developments or redevelopments in this instance, which meet thresholds as defined in each entity's rules and regulations. These facilities as designed may be for water quantity and/or quality control. In the City of Franklin developers/residents typically use wet ponds, biofiltration basins, and/or permeable pavers, although other best management practices (BMPs) are also available. As an MMSD customer and designated by the WDNR as a Municipal Separate Storm Sewer System, the Municipal Code is written to not only include City quantity requirements, but also MMSD quantity requirements, and WDNR quantity and quality requirements. The facilities within private developments are involved in those credits. Therefore, ongoing maintenance of private facilities is imperative.

It is the responsibility of the development owner, or a subdivision homeowners association, to maintain the storm water facilities in perpetuity per a prescribed Maintenance Agreement. The enclosed agreements include the property of LEO Cottages at S 31st St.

ANALYSIS

The WDNR offers standard Operation and Maintenance templates for a multitude of BMPs, and most engineers use those to develop site-specific Maintenance Agreements. The attached Agreements were prepared by the owner and their engineers and revised as necessary.

It is recommended that the Common Council authorize the Mayor and City Clerk to sign said storm water facilities maintenance agreement and storm water access easement, and have it recorded with the Register of Deeds for Milwaukee County.

OPTIONS

Approve or Deny the Storm Water Facilities Maintenance Agreement and Storm Water Access Easement.

FISCAL IMPACT

All costs associated with storm water facility maintenance are to be paid by the developer, owner, or homeowners association as stated in the individual agreement.

RECOMMENDATION

Motion to Adopt Resolution 2026-_____, a resolution to authorize acceptance of Storm Water Facilities Maintenance Agreement and Storm Water Access Easement from Advenir Azora Development, LLC at LEO Cottages contingent upon all technical changes to exhibits and all necessary signatures. Also address changes and tax key number changes.

Fountains and/or aerators shall not be installed in any ponds without prior written approval from the City Engineer.
2. The Owner, its successors and assigns, shall comply with the ordinances and regulations which require that the Storm Water Facilities shall be regularly inspected and maintained as often as conditions may require, but in any event, at least once each year. The Standard Operation and Maintenance Report attached to this Agreement as Exhibit "A" (the "Standard Operation and Maintenance Report") and by this reference made a part hereof shall be used for the purpose of the regular inspections of the Storm Water Facilities. The Owner, its successors and assigns, shall keep the Standard Operation and Maintenance Reports from past inspections, as well as a log of maintenance activity indicating the date and type of maintenance completed of the Storm Water Facilities. The purpose of the inspections is to assure safe and proper functioning of the Storm Water Facilities. The inspections shall cover all storm water facilities, including but not limited to open swales (ditches), storm sewers, manholes, inlets, berms, outlet structures, pond areas and access roads. Deficiencies shall be noted in the Standard Operation and Maintenance Report. The Standard Operation and Maintenance Reports and maintenance log shall be made available to the City for review.
3. The Owner, its successors and assigns, hereby grant permission to the City, its authorized agents and employees, to enter upon the Property and to inspect the Storm Water Facilities, whenever the City deems necessary. The purpose of inspection is to provide periodic review by City staff, to investigate reported deficiencies and/or to respond to citizen complaints. The City shall provide the Owner, its successors and assigns, copies of the inspection findings and a directive to commence with the repairs if necessary (the "Inspection Report"). Corrective actions shall be taken within a reasonable time frame as established by the City Engineer.
4. The Owner, its successors and assigns, shall adequately maintain the Storm Water Facilities, including but not limited to all pipes and channels built to convey storm water to the facility, as well as all structures, improvements, and vegetation provided to control the quantity and quality of the storm water. Adequate maintenance is herein defined as keeping the Storm Water Facilities in good working condition so that these Storm Water Facilities are performing their design functions and are in accordance with the Stormwater Basin Maintenance Standards as detailed in Section 15.8.0600 of the City of Franklin Unified Development Ordinance, and Section 13.12 (2) of the Milwaukee Metropolitan Sewerage District (MMSD) rules, and by this reference made a part hereof.
5. If the Owner, its successors and assigns fails to maintain the Storm Water Facilities in good working condition acceptable to the City and does not perform the required corrective actions in a time as established by the City Engineer in the Inspection Report, the City may:
 - a) Issue a citation to the Owner, its successors and assigns. Such failure to maintain the Storm Water Facilities in good working condition may constitute a violation of Section 15.8.0600 of the Unified Development Ordinance of the City of Franklin. The penalty for such violation of Section 15.8.0600 shall be not less than \$100 nor

more than \$2500 for each offense, together with the costs of prosecution. Each day that the violation exists shall constitute a separate offense, and

- b) Perform the corrective actions identified in the Inspection Report and assess the Owner, its successors and assigns, for the cost of such work. The cost of such work shall be specially charged against the Property pursuant to Wisconsin Statutes Section 66.0627. If the facilities are located on an outlot owned collectively by a homeowners association, the City may specially charge each member of the homeowners association according to the ownership interest in the facilities located on the property. This provision shall not be construed to allow the City to erect any structure of permanent nature on the Property outside of the easement for the Storm Water Facilities. It is expressly understood and agreed that the City is under no obligation to routinely maintain or repair said Storm Water Facilities pursuant to the storm water management practices and in no event shall this Agreement be construed to impose any such obligation on the City.
- 6. In the event the City, pursuant to this Agreement and applicable easements performs work of an emergency nature, or expends any funds in performance of said work for labor, use of equipment, supplies, materials, and the like, the Owner, its successors and assigns, shall reimburse the City upon demand, within thirty (30) days of receipt thereof for all actual costs incurred by the City hereunder.
- 7. This Agreement imposes no liability of any kind whatsoever on the City and the Owner agrees to indemnify and hold the City harmless from any liability in the event the Storm Water Facilities fail to operate properly.
- 8. This Agreement shall be attached as an exhibit to any document which creates a homeowners association that is responsible for maintenance of the Storm Water Facilities and shall be recorded at the Milwaukee County Register of Deeds, and shall constitute a covenant running with the land, and shall be binding on the Owner, its administrators, executors, assigns, heirs and any other successors in interest, including any homeowners association and all owners of the Property or any portion thereof. The Owner shall provide the City with a copy of any document which creates a homeowners association that is responsible for the Storm Water Facilities.
- 9. The Owner, its successors and assigns, is prohibited from building structures, installing play equipment, installing plants, changing grades or performing any function that inhibits care and maintenance of any Storm Water Facilities.
- 10. The Owner, its successor and assigns shall maintain, at all times, an individual(s) who will serve as a contact person(s).

DEVELOPMENT AGREEMENT

FOR

LEO AT FRANKLIN[NAME OF DEVELOPMENT]

July, 2026
[~~(Month)~~-(~~Year~~)]

**DEVELOPMENT AGREEMENT
FOR
LEO AT FRANKLIN~~[NAME OF DEVELOPMENT]~~**

ARTICLES OF AGREEMENT (THIS "Agreement") made and entered into this _____ day of _____ 2026, by and between LEO@Franklin Franklin SFR Owner, LLC,
a Delaware limited liability company, a ~~[entity type]~~, hereinafter called the "Developer" as party of the first part, and the City of Franklin, a municipal corporation of Milwaukee County, Wisconsin, party of the second part, hereinafter called the "City".

WITNESSETH:

WHEREAS, the Developer desires to improve and develop certain lands located in the City as described on attached Exhibit "A" (the "Development"), and for that purpose cause the installation of certain public improvements, hereinafter described in this Agreement and the exhibits hereto (the "Improvements"); and

WHEREAS, the Developer having applied to the City for Site Plan review, a Special Use,
a Planned Development Overlay, and a
Subdivision,
and the approval[s] thereof by the Plan Commission and Common
Council providing that as a condition of approving
the Development, that the Developer make and install, or have made and have installed, ~~any public~~
the Improvements reasonably necessary, to wit: water main, including pipe, fittings, valves,
hydrants and other water appurtenances; public sidewalk along 31st Street; acceleration and
deceleration lanes on 31st Street; and sanitary sewer and associated
manholes; and

WHEREAS, the public works schedule and budget of the City does not now include the Improvements for the Development and normally there would be a considerable delay in the installation of the Improvements unless this Agreement is entered into by the parties; and

WHEREAS, the City believes that the orderly planned development of the Development will best promote the health, safety and general welfare of the community, and hence is willing to approve the Development provided the Developer proceed with the installation of the Improvements in and as may be required for the Development, on the terms and conditions set forth in this Agreement and the exhibits attached hereto.

NOW, THEREFORE, in consideration of the payment of One Dollar (\$1.00) and other good and valuable consideration to each in hand paid by the other, receipt of which is hereby acknowledged and in consideration of the mutual covenants herein contained, the parties agree:

1. The legal description of the Development is set forth on attached Exhibit "A".
2. The Improvements aforementioned shall be as described in Exhibit "B" except as noted in Exhibit "E".

3. The Developer shall prepare plans and specifications for the aforesaid Improvements, under direction of the City Engineer, and to be approved by the City Engineer. After receiving the City's approval thereof, the Developer shall take bids, and award contracts (the "Improvements Contracts") for and install all of the Improvements in accordance with standard engineering and public works practices, and the applicable statutes of the State of Wisconsin. The Improvements shall be based on the construction specifications stated in attached Exhibit "F".
4. The full cost of the Improvements will include all labor, equipment, material, engineering, surveying, inspection and overhead costs necessary or incidental to completing the Improvements (collectively the "Improvements Costs"). Payment for the Improvements Costs will be made by the Developer periodically as the Improvements are completed as provided in the Improvements Contracts. The total estimated cost of the Improvements is Two Million Five Hundred Ten Thousand Eight Hundred Twenty One and 49/100 (IN WORDS) and 00/100 Dollars as itemized in attached Exhibit "D".
5. To assure compliance with all of Developer's obligations under this Agreement, prior to the issuance of any building permits, the Developer shall file with the City a Construction Financial Guarantee (the "Financial Guarantee", which may be either in the form of a Letter of Credit or a Performance Bond and such form shall be the choice of the Developer) in the initial amount of \$1,977,020.07 _____, representing the estimated costs for the Improvements as shown in attached Exhibit "D". Upon the written approval of the City Engineer, the amount of the Financial Guarantee shall may be reduced periodically as the Improvements are paid for and approved by the City so that following each such reduction, the Financial Guarantee equals the total amount remaining for Improvements Costs pertaining to Improvements for which Developer has not paid as set forth in the Improvements Contracts for the Improvements or which remain unapproved by the City. The Financial Guarantee shall be issued by a bank or other financial institution (the "Surety Guarantee Issuer") reasonably satisfactory to the City, for the City as "Beneficiary", in a form satisfactory to the City Attorney. Failure to file the Financial Guarantee within ten (10) days after written demand by the City to the Developer shall make and render this Agreement null and void, at the election of the City. Upon acceptance by the City (as described below) of and payment by Developer for all the completed Improvements, the Financial Guarantee shall be released and surrendered by the City to the Developer, and thereafter the Developer shall have no further obligation to provide the Financial Guarantee to the City under this Paragraph 5., except as set forth under Paragraph 13. below.
6. In the event the Developer fails to pay the required amount for the Improvements or services enumerated herein within thirty (30) days of demand, or per contract after being billed for each improvement of each stage for any Improvements Costs at the time and in the manner provided in this Agreement, the City shall provide written notice to the Developer of the payment required or that it will be presented

Commented [BCR1]: The City initially indicated that notice and cure clauses are not acceptable. But here the Owner is constructing the public improvements and it is not paying the City. Owner needs a right with the City if there is a legitimate dispute with its contractor before the City can exercise its later right to notify the Surety company to pay the contractor. Request is that the City agree to the added text or revise/explain its position.

to the Surety Guarantee Issuer after an additional thirty (30) days. At any point during the initial thirty (30) days or after the City's written notice and the additional thirty (30) days, Developer may notify the City that it disputes the amount that is due, that it disputes that the amount is not yet due, or that there are defects in material and/or workmanship to be repaired, replaced, or corrected for the Improvements or services. The Developer shall identify the reason(s) for its dispute, the status of resolving the dispute, and its anticipated timetable to resolve the dispute. If amounts remain unpaid after the City's written notice and the additional thirty (30) days, and provided that Developer has not notified the City of a dispute and if amounts remain unpaid after an additional thirty (30) days written notice to Developer, the City may notify the Surety Guarantee Issuer in writing to make the said payments under the terms of the Financial Guarantee to the Contractor, within the later of the time frame stipulated in the Financial Guarantee or five (5) days after receiving a written demand from the City to make such payment. Demand shall be sent by registered letter with a return receipt requested, addressed to the Surety Guarantee Issuer at the address indicated on the Financial Guarantee, with a copy to the Developer, described in Paragraph five (5) above. It is understood between the parties to this Agreement, that billings for the Improvements Costs shall take place as the various segments and sections of the Improvements are completed and certified by the City Engineer as complying with the approved plans and applicable provisions of the Franklin Municipal Code and Unified Development Ordinance.

Commented [BCR2]: This shows as a strikeout but it is included in the preceding 2 lines.

In addition, the City Engineer may demand that the Financial Guarantee be extended from time to time to provide that the Financial Guarantee be in force until such time that all Improvements have been installed and accepted through the one (1) year guarantee period as set forth under Paragraph 13. below, including the fourteen twelve (142) months following substantial completion of the Improvements and 10% limitations also set forth thereunder. For the purposes of this Agreement, "Substantial Completion" is defined as being the date that the Improvements are accepted by the City and the surface-binder course of asphalt is placed on the privatepublic roadway of the Development. Demand for said extension shall be sent by registered letter with a return receipt, with a copy to the Developer. If said Financial Guarantee is not extended for a minimum of a one (1) year period prior to expiration date of the Financial Guarantee (subject to any then applicable of the aforementioned limitations), the City may send written notice to the Surety Guarantee Issuer to make payment of the remaining balance of the Financial Guarantee to the City to be placed as an escrow deposit.

Commented [BCR3]: We all agreed at the 8/6/26 meeting with City staff that a Maintenance Financial Guarantee could replace the Financial Guarantee after dedication and acceptance. We also have private roads (not public) and need to distinguish between binder course and final surface course of asphalt. Therefore these edits are needed to address those issues and govern the Financial Guarantee in this section but similar language appears in #13 for the Maintenance Financial Guarantee. Also an edit is required to address 12 vs. 14 months in this text. Request is that the City agree to the added text or revise/explain its position.

7. The following special provisions shall apply:

- (a) Those special provisions as itemized on attached Exhibit "C" and attached Exhibit "E" are hereby incorporated by reference in this Agreement and made a part hereof as if fully set forth herein.

Commented [BCR4]: This appears to be related to the one year guarantee period. Stricken here as it is covered by the Maintenance Financial Guarantee in #13.

- (b) ~~The Improvements set forth laterals mentioned in Exhibit "B" are to be installed before the final surface course of asphalt is installed~~street surfacing mentioned in Exhibit "B" is commenced.

Commented [BCR5]: We have more than laterals and we agreed at the 8/6/26 meeting with City staff that we need to distinguish between binder course and final surface course of asphalt. Therefore these edits are needed to address those issues as well as the one in (c) below.

- (c) Electric and Gas Company is to install all necessary mains before the ~~final surface course of asphalt is installed~~street surfacing mentioned in Exhibit "B" is commenced. Also, any other underground work by any other utilities is also to be completed before said street surfacing is commenced.

- (d) To the extent necessary to accommodate public utilities easements on the Development, easements will be dedicated for the use of the Electric Company, the Telephone Company and Cable Company to provide utility services to the Development. All utilities shall be underground except for any existing utility poles/lines.

- (e) The curb face to curb face width of the roads in the Development shall be ~~as determined by the City Engineer,~~

Commented [BCR6]: City to confirm this determination will be "in accordance with the approved plans" and not arbitrary. Or "in accordance with the approved plans" should be put in this clause.

- (f) Fee title to all of the Improvements and binding easements upon lands on which they are located, shall be dedicated and given by the Developer to the City, in form and content as required by the City, without recourse, and free and clear of all liens or encumbrances, with final inspection and approval of the Improvements and accompanying title and easement documents by the City constituting acceptance of such dedication. The Improvements shall thereafter be under the jurisdiction of, the City and the City shall maintain, at the City's expense, all of the Improvements after completion and acceptance thereof by the City. Necessary permits shall be obtained for all work described in this Agreement.

8. The Developer agrees that it shall be fully responsible for all the Improvements in the Development and appurtenances thereto during the period the Improvements are being constructed and continuing until the Improvements are accepted by the City (the "Construction Period"). Damages that may occur to the Improvements during the Construction Period shall be replaced or repaired by the Developer. The Developer's obligations under this Paragraph 8., as to any improvement, terminates upon acceptance of that improvement by the City.
9. The Developer shall take all reasonable precautions to protect persons and property of others on or adjacent to the Development from injury or damage during the Construction Period. This duty to protect shall include the duty to provide, place and maintain at and about the Development, lights and barricades during the Construction Period.
10. If the persons or property of others sustain loss, damage or injury resulting directly or indirectly from the work of the Developer or its subcontractors or materialmen in their performance of this Agreement or from its failure to comply with any of

the provisions of this Agreement or of law, the Developer shall indemnify and hold the City harmless from any and all claims and judgments for damages, and from costs and expenses to which the City may be subjected or which it may suffer or incur by reason thereof except for any claims or damages that arise due to the City's negligence or willful misconduct, provided; however, that the City shall provide to the Developer promptly, in writing, notice of the alleged loss, damage or injury.

Commented [BCR7]: Same comment from the SW Maintenance Agreement: The City initially indicated that this clause is not acceptable. But it is not acceptable to Owner to indemnify City for its negligence or willful misconduct. **Request is that the City agree to the added clause or revise/explain its position.**

11. Except as otherwise provided in Paragraph 12. below, the Developer shall indemnify and save harmless the City, its officers, agents and employees, and shall defend the same, from and against any and all liability, claims, loss, damages, interest, actions, suits, judgments, costs, expenses, and attorney's fees, to whomsoever owed and by whomsoever and whenever brought or obtained, which in any manner results from or arises in connection with:
 - (a) the negligent or willfully wrongful performance of this Agreement by the Developer or any subcontractor retained by the Developer;
 - (b) the negligent or willfully wrongful construction of the Improvements by the Developer or by any of said subcontractors;
 - (c) the negligent or willfully wrongful operation of the Improvements by the Developer during the Construction Period;
 - (d) the violation by the Developer or by any of said subcontractors of any applicable law, rule, regulation, order or ordinance; or
 - (e) the infringement by the Developer or by any of said subcontractors of any patent, trademark, trade name or copyright.
12. Anything in this Agreement to the contrary notwithstanding, the Developer shall not be obligated to indemnify the City or the City's officers, agents or employees (collectively the "Indemnified Parties") from any liability, claim, loss, damage, interest, action, suit, judgment, cost, expenses or attorney's fees which arise from or as a result of the negligence or willful misconduct of any of the Indemnified Parties.
13. The Developer hereby guarantees that the Improvements will be free of defects in material and/or workmanship for a period of one (1) year from the date of acceptance of the Improvements by the City. To secure the Developer's obligations under said guaranty upon acceptance of the Improvements by the City, the Developer will provide to the City a Maintenance Financial Guarantee (the "Maintenance Financial Guarantee", which may be either in the form of a Letter of Credit or a Maintenance Bond equal to 10% of the sub-total in Exhibit "D" of the total Improvements Costs, which Maintenance Financial Guarantee shall expire one (1) year after the Improvements have been accepted by the City or continue the existing base Financial Guarantee maintaining a minimum of 10% of the sub-total

Commented [BCR8]: This language is necessary to memorialize the agreement that a Maintenance Financial Guarantee could replace the Financial Guarantee after dedication and acceptance. The LOC or bond option was copied from #5 above.
Request is that the City agree to the added text or revise/explain its position.

in Exhibit "D" of the total Improvements Costs for one (1) year after the improvements have been accepted by the City. This Maintenance Financial Guarantee shall be a separate but partial continuation of, and not in addition to, the Financial Guarantee described in Paragraph 5. above.

14. ~~(a)~~ The Developer shall not commence work on the Improvements until it has obtained all insurance coverage required under this Paragraph 14. and has filed certificates thereof with the City:

- (a) ~~(H)~~ **COMPREHENSIVE GENERAL LIABILITY AND PROPERTY DAMAGE INSURANCE** - Coverage shall protect the Developer and all subcontractors retained by the Developer during the Construction Period and all persons and property from claims for damages for personal injury, including accidental death as well as claims for property damages, which may arise from performing this Agreement, whether such performance be by the Developer or by any subcontractor retained by the Developer or by anyone directly or indirectly employed by either the Developer or any such subcontractor. The City shall be named as an additional insured on all such insurance coverage under this Paragraph 14.(a)(1) as set forth herein and Paragraph 14.(a)(2). The amounts of such insurance coverage shall be as follows:

A. General/Commercial Liability	\$2,000,000 per each occurrence for bodily injury, personal injury, and property damage \$4,000,000 per general aggregate, <i>CITY shall be named as an additional insured on a primary, non-contributory basis.</i>
B. Automobile Liability	\$1,000,000 combined single limit <i>CITY shall be named as an additional insured on a primary, non-contributory basis.</i>
C. Contractor's Pollution Liability	\$1,000,000 per occurrence \$2,000,000 aggregate <i>CITY shall be named as an additional insured on a primary, non-contributory basis.</i>
D. Umbrella or Excess Liability Coverage for General/Commercial, Automobile Liability, and Contractor's Pollution Liability	\$10,000,000 per occurrence for bodily injury, personal injury, and property <i>CITY shall be named as an additional insured on a primary, non-contributory basis.</i>

E. Worker's Compensation and Employers' Liability	Statutory <i>Contractor will provide a waiver of subrogation and/or any rights of recovery allowed under any workers' compensation law.</i>
---	--

(b) ~~(2)~~ The Developer shall file a certificate of insurance containing a thirty (30) day notice of cancellation to the City prior to any cancellation or change of said insurance coverage which coverage amounts shall not be reduced by claims not arising from this Agreement.

15. The Developer shall not be released or discharged of its obligations under this Agreement until the City has completed its final inspection of all the Improvements and the City has issued its written approval of all of the Improvements, which approval shall not be unreasonably withheld or delayed, and Developer has paid all of the Improvements Costs, at which time the Developer shall have no further obligations under this Agreement except for the one (1) year guaranty under Paragraph 13.

16. The Developer and the City hereby agree that the cost and value of the Improvements will become an integral part of the value of the Development and that no future lot assessments or other types of special assessments of any kind will be made against the Development by the Developer or by the City for the benefit of the Developer, to recoup or obtain the reimbursement of any Improvement Costs for the Developer.

17. Execution and performance of this Agreement shall be accepted by the City as adequate provision for the Improvements required by

Commented [BCR9]: Confer with the City on what should fill in this blank.

18. Penalties for Developer's failure to perform any or all parts of this Agreement shall be in accordance with Division 15-9.0500, Violations, Penalties, and Remedies of the Unified Development Ordinance and §1-19. Penalty provisions of the City of Franklin Municipal Code, as amended from time to time, in addition to any other remedies provided by law or in equity so that the City may obtain Developer's compliance with the terms of this Agreement as necessary.

19. This Agreement may be executed in multiple counterparts, and will have the same legal force and effect as if the Developer and City had executed it as a single document. The Developer and City agree that fully electronic signatures and records are acceptable, under Chapter 137 of the Wisconsin Statutes. The Developer and City may sign in writing or by electronic signature. An electronic signature, facsimile copy, or computer image of a signature, will be treated, and

will have the same effect as an original signature, and will have the same effect, as an original signed copy of this document, and any amendment hereto.

~~19-20.~~ [This Agreement shall be binding upon the parties hereto and their respective successors and assigns, excepting that the parties hereto do not otherwise intend the terms or provisions of this Agreement to be enforceable by or provide any benefit to any person or entity other than the party of the first part and the party of the second part. Developer shall not convey or assign any of its rights or obligations under this contract whatsoever without the written consent of the City, which shall not be unreasonably withheld upon a showing that any successor or assignee is ready, willing and able to fully perform the terms hereof and the Developer remains liable hereunder. This Agreement shall run with the land.

Commented [BCR10]: The City's template document had this paragraph hang out there so we propose making the assignment clause a numbered paragraph (new #20).

REPORTS & RECOMMENDATIONS	An Ordinance to Modify the Municipal Code Section 245-5 D. (4) Designating No Parking on the West Side of Schlueter Pkwy from W. Drexel Avenue to S. Legend Drive	ITEM NUMBER Ald. District 2 M. 8.
<u>BACKGROUND</u> At their meeting held on August 11th, 2026, the Board of Public Works (BPW) discussed concerns brought forth regarding parking on Schlueter Pkwy, specifically in regard to safety. The Board of Public Works is recommending to the Council that the west side of Schlueter Pkwy be designated as “No Parking”. <u>ANALYSIS</u> Of initial concern was the safety for drivers and pedestrians in this area with vehicles parked on both sides of Schlueter Pkwy. This road is used to gain access to the Franklin City Hall, Franklin Library, Lions Legend Park (and related playground, courts, etc.), and is bordered by the Franklin Fire Department, among access to other residential areas. This area becomes dangerous for pedestrians crossing from Lions Legend Park to the west side of Schlueter Pkwy. It also presents difficulty of access for larger vehicles & equipment, including Department of Public Works (DPW) trucks with trailers that are used to mow the park areas & trim trees, as well as Fire Department vehicles which may need to access the Library, City Hall, Lions Legend Park area, and surrounding neighborhoods to the West and South of the park. <u>FISCAL NOTE</u> There is no impact on the budget. The Department of Public Works can handle the additional signage in the existing operating budget. <u>RECOMMENDATIONS</u> The Department of Public Works recommends the Council modify the Municipal Code section 245-5 D.(4) designating no parking on the west side of Schlueter Pkwy between W. Drexel Avenue and S. Legend Drive to assist with pedestrian safety and vehicle accessibility. Council Action Requested Request Common Council approval to modify the Municipal Code section 245-5 D.(4) designating no parking on the west side of Schlueter Pkwy between W. Drexel Avenue and S.
