

**Utility Construction
Notification
This is NOT a City Project**

Please excuse
our disruption.

We're building a 100% fiber optic internet in
your neighborhood on behalf of Gateway Fiber.

We'll generally be working in the Right-of-Way, usually
within 15 feet of the curb. In some cities, a Utility
Easement may extend another 10 feet beyond that.

If you have any utilities in the easements,
please mark them to help us avoid damage
(sprinklers, dog fences, or private electric)

If you have questions regarding construction,
please call the number below.

888-201-4339

gatewayfiber

Fairer, friendlier, faster internet is coming.

Gateway Fiber is raising the bar for what an internet experience can be. For more info about our safety and construction process, please scan the QR code below.
