Safe Business Practices

Establishing, to the extent possible, curbside pick-up to reduce in-store traffic and mitigate outdoor lines.

Establishing entry lines outside of the business with markings for patrons to enable them to stand at least six (6) feet apart from one another while waiting to enter. Businesses are encouraged to also use alternatives to lines, including allowing customers to wait in their vehicles for a text message or phone call and scheduling pick-ups or entries to the store.

Ensuring one-way traffic in shopping aisles.

Increasing standards of facility cleaning and disinfection to limit worker and patron exposure to COVID-19, as well as adopt protocols to clean and disinfect in the event of a positive COVID-19 case in the workplace.

Adopting policies to prevent workers from entering the premises if they display respiratory symptoms or have had contact with a person with a confirmed diagnosis of COVID-19.

Complying with Physical Distancing and Protective Measure Requirements.

Physical Distancing and Protective Measures

Maintaining physical distancing of six (6) feet between people not residing in a single living unit or household.

Washing hands with soap and water for at least 20 seconds as frequently as possible or using hand sanitizer.

Covering coughs or sneezes (into the sleeve or elbow, not hands).

Regularly cleaning high-touch surfaces.

Not shaking hands.

Use of a mask or cloth face covering. *(Note: the use of masks or cloth face coverings is strongly recommended but shall not be required due to equity concerns regarding the challenges that either may cause for individuals because of disabilities and/or shortages of PPE.)*

Following all other public health recommendations issued by State of Wisconsin Department of Health Services, Milwaukee County Department of Health & Human Services and the U.S. Centers for Disease Control and Prevention.
