

## **PRESS RELEASE**

**May 19, 2020**

### **FOR IMMEDIATE RELEASE**

#### **EXPIRATION OF EMERGENCY HEALTH ORDER #1**

City of Franklin Director of Health and Human Services Courtney Day RN BSN has announced that Emergency Health Order #1 will expire Thursday, May, 21, 2020 at 11:59pm and will not be extended. "We've given our businesses time to develop safe opening plans, re-hire and train their staffs and to restock their inventories. All in an effort to provide a safe environment for both the customer and the employees." Franklin, along with 10 other Health Departments in Milwaukee County, issued an emergency order that relaxed restrictions on most businesses and activities after the Wisconsin State Supreme Court overturned the State Emergency Order 28 commonly referred to as "Safer at Home." The goal of the interim, short-term order was to provide a bridge to allow an orderly and safe transition for business operations.

"We have had great cooperation from all of our businesses and citizens during the worst periods of this pandemic. Now is the time for us to show the rest of the area how to spring back from this devastating virus and safely return to the vibrant community that we are," said Ms. Day. Franklin Mayor Steve Olson added "This has been extremely difficult for everyone financially, emotionally and physically. We're going to do our best to help people feel good again by getting them back to work; helping them be with family; having them visit our parks and playgrounds, go to a movie or maybe a ballgame or a dinner out all while still taking the necessary precautions to be safe and healthy."

The City of Franklin Health Department will be issuing guidelines and best practices for safely operating businesses as we recover from the pandemic remembering that the virus is still with us as we continue to treat active cases within the City.

The City of Franklin Health Department reminds everyone to:

- Practice Social Distancing

9229 W. Loomis Road, Franklin, WI 53132 (414) 425-7500 Fax: (414) 425-6428  
[www.franklinwi.gov](http://www.franklinwi.gov)

- Wash your hands often
- Stay home if you don't feel well
- Cover your cough
- Wear a mask if possible
- Avoid crowds
- Avoid visiting senior living complexes

**The City of Franklin Health Department offers custom guidelines for operating businesses within the city free of charge. Contact the department to arrange for a consultation.**
